CAHOOTS was created in partnership with SPPS teachers as a creative way for youth to stay engaged with learning over the summer.

Grade 4-5 classrooms enjoy exploring with the University of Minnesota Arborists

In Our Classrooms

Kindergarten

Kindergarten students have spent a wonderful year learning about themselves, others, and the world around them. We are now getting ready to ‘fly off’ to First Grade where we can’t wait to show the First Grade teachers all that we have learned this year! We have grown into responsible, respectful, safe, caring, and sharing members of our classrooms and in our world. We have learned to express ourselves through positive words and actions. We have worked on letter names and sounds, sight words and ‘Sound and Say’ words, our numbers 1 – 100, sorting by attributes, measuring items, recognizing 2D and 3D shapes and simple addition and subtraction. We have grown both socially and academically! We have truly "Discovered the World"! Have a great summer everyone! And the Kindergartners will See You When In First Grade

DHH K-2 Classroom

What a year! These last few weeks of school, the DHH K-2nd classroom has been busy learning about life cycles, planting flowers, visiting our caterpillar friends in the next classroom, and sharing our favorite memories from the year. Last week we visited the Zoo, and that has been the topic of many conversations since! Each one of the students has grown in ways too many to count. Each one bringing their own uniqueness and zest to life. It has been a year to remember!
Grade 1-2 Classrooms

Dear 1/2nd Grade Families,

We have been working very hard on our reading, writing and math skills...to get our learners confident and competent in all these skills. As summer approaches, reading daily and working on adding and subtracting facts will equip students for 2/3rd grade success. Please consider setting up a daily routine with your student in reading and math to prepare them for a strong start in September.

Thank you for sharing your little learners with us, it’s been a year, but we've become a strong 1/2nd grade family and we will miss our students!

Warmly,
Karen Pappas and Kirsten Himmerich

Grade 3 Classrooms

We are proud of the growth we have seen among the 3rd graders! We encourage all students to continue practicing academic skills throughout the summer, reading for fun and at individual reading levels, math facts, and of course writing. Practicing these skills will help students to be more successful as future students.

We will also be hosting an end of the year 3rd grade celebration, June 9th 4:30-6:30 at Merriam Park. Please come and enjoy time together.

3rd Grade End-of-School-Year Celebration
June 9th, 4:30-6:30 @ Merriam Park
3rd graders and all loved ones are welcome.

Grade 4-5 Classrooms

This final month of school in 4th and 5th grade has been busy! In literacy we have been focusing on perspective and writer’s craft. We’ve looked at symbolism and what the theme and topics are in a text by inferring information. We wrapped up FAST testing to see what progress the students have made this year.

In math we worked on our last unit called “Transformations” that focused on symmetry, translations, and sliding. In addition to that, we continue our daily math review that goes back over such topics as long division, multi-digit multiplication, and word problems.

In science we have looked at erosion and in social studies we focused on learning more about our Minnesota history. We learned the word "Bdote", which is a Dakota word that generally means "where two waters come together." With this we took a field trip to the Fort Snelling State Park and saw our Bdote here in Minnesota.
Counselor

Greetings Four Seasons A+ Families!

Our 5th grade students have been working hard and learning about the transition to middle school. We are wrapping up these lessons and will focus on an end of the year reflection and celebration during our last classroom lessons!

First through fourth grade students have also been hard at work learning and practicing Ways to Stay Safe during our Child Protection classroom lessons.

With summer fast approaching here are some helpful resources:  
- Youth Services Network - provides up to date resources for shelter, food and drop in care  
- Find Free Meals for Students  
- SPPS Free Summer Meals  
- Sprockets  
- Boys and Girls Club Locations in the Twin Cities

It has been an honor getting to work with your child this year through our weekly counseling lessons in their classroom!

In partnership,
Brooke Hardman - School Counselor

Dance

Dear Four Seasons A+ Families,

As this school year draws to a close, so does my time as the Dance Specialist at Four Seasons. I have been fortunate to spend the last 24 years here doing what I love. Thank you so much for sending your children here and giving me the pleasure of dancing with them.

I will miss them all! I plan to spend my time now with my grandsons, my family, my dog, and my horses.

Best wishes to all,

Ms. Pudwill
