

Student Google Meet

...

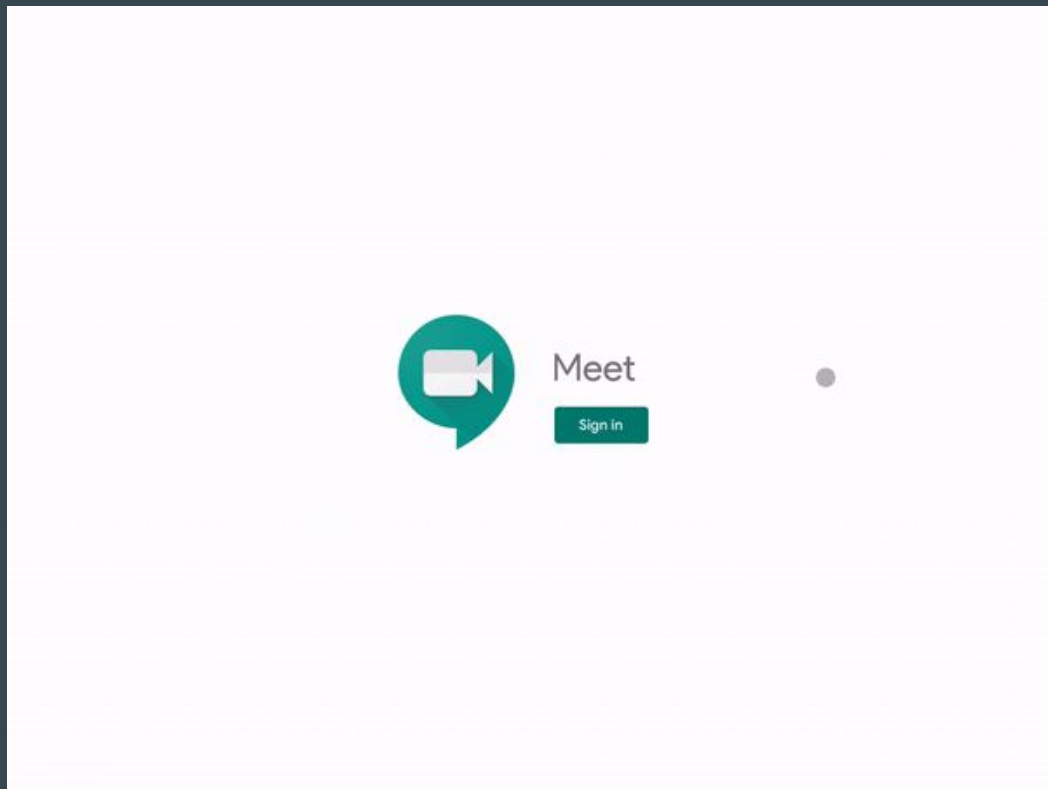

Launch the Google Meet App on the iPad

Download the app from Self-Service if needed.

Sign into Meet with your Google account

1. Tap **Sign In**

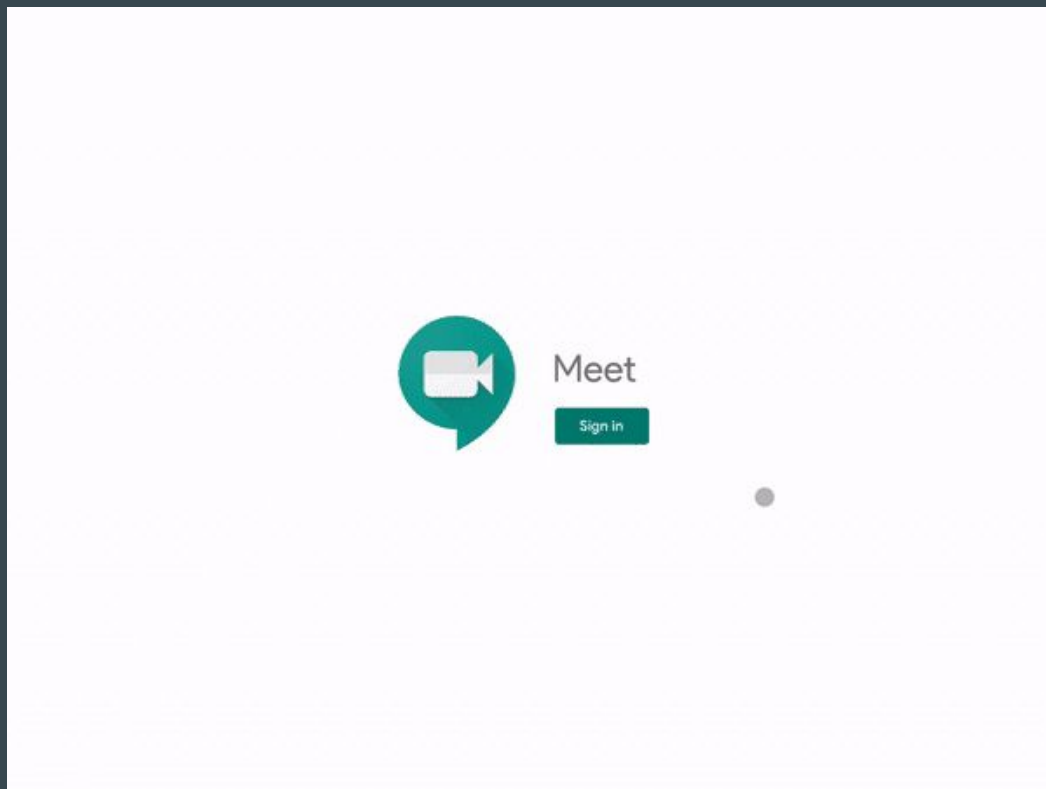

Sign into Meet with your Google account

2. (If you are already signed in to Google through a different account, tap on the email address to get started)

-If that worked for your account, [TAP HERE](#) to skip additional sign-in directions.

-If that DIDN'T work, [TAP HERE](#) to continue with sign-in directions.

Sign into Meet with your Google account

3. “Meet Wants to Use google.com to sign in”
 - Tap **Continue**

Sign into Meet with your Google account

4. Type full student SPPS email address

It will look something like:

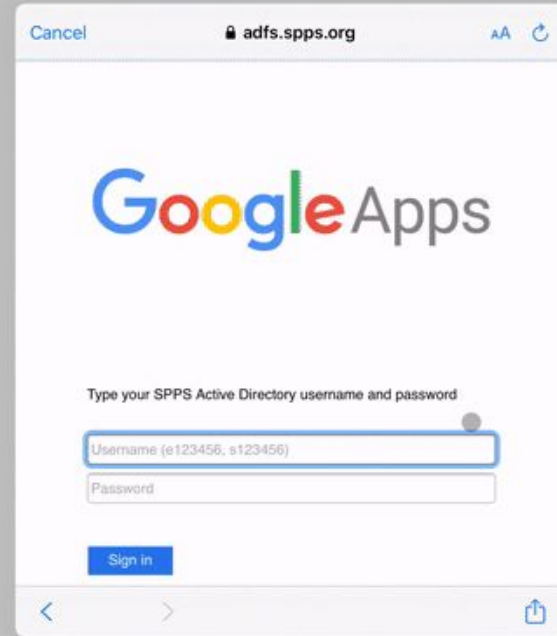

msylva001@stpaul.k12.mn.us

- Tap **Next**

Sign into Meet with your Google account

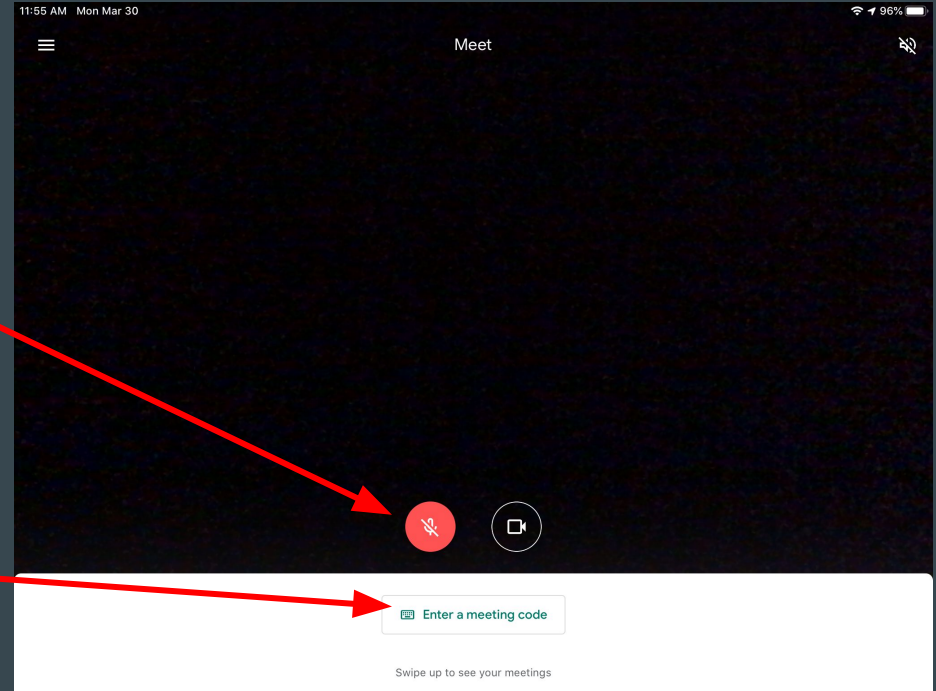

5. Enter your s##### and password
 - Tap **Sign In**

Ready to join a Meet video call

If your teachers has provided a link to the video call, tapping on it from Schoology or Seesaw should automatically open Meet. Tap MUTE before joining the call.

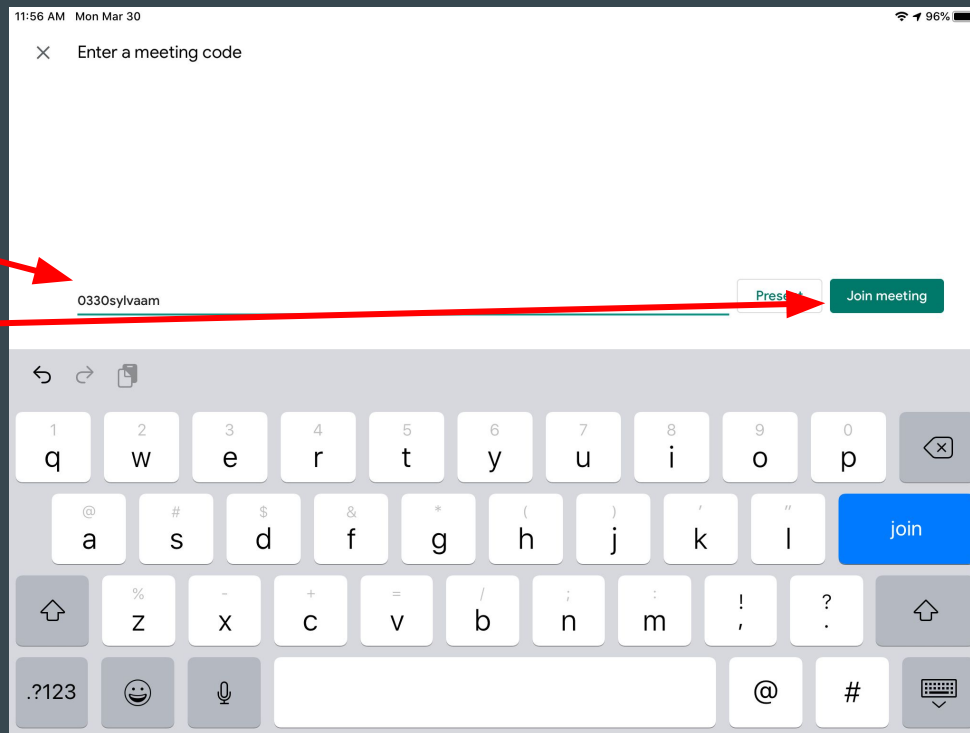

If your teacher has given you a “Nickname” or “Meeting code,” tap “Enter a meeting code.”

Entering Meeting Code

Type the “Nickname” or “Meeting Code” here.

Then tap “Join Meeting.”

Chat

If you wish to unmute, press the “Chat” button and request permission to unmute and talk to the class.

The chat will open and you type your message or question at the bottom of the screen.

Captions

To turn on captions, click this button.
This will automatically caption what
each person is saying.

Ending Meet

Once the class is over, leave the Meet by pressing the white button with the red telephone image.

You are now able to join a new Meet for a new class.
