

Continuation Rate Analysis

Student Movement in the St. Paul Public Schools

Percentage of students enrolled on October 1 of the first year who remained at the same school, moved to another SPPS school, or moved out of district in the following year

Cohorts for each Continuation Period (CP) (e.g. CP 19-20) are defined by students enrolled in the official October 1 enrollment of the first year (e.g. SY 2018-19). The analyses are based on the matching of student October 1 enrollment record of the first year to that of the second year (e.g. SY 2019-20) at the individual level. So, the CP 19-20 same-school continuation rate indicates the percentage of students enrolled at a given school on October 1, 2018 (SY 2018-19) who were still enrolled at that same school on October 1, 2019 (SY 2019-20).

The school-level analyses exclude students who were in alternative programs, treatment centers, or correctional institutions in the first year. The analyses also exclude grade 12 students as they are expected to graduate.

The school-level analyses include only those students who could logically be expected to stay in the same school based on the grades offered in that school (or the grades offered in a unified elementary program or unified K-8). The analyses of student movement in CP 19-20 exclude most SY 2018-19 fifth and eighth graders, as these students transitioned to new schools in SY 2019-20.

EC students served in Pre-K classrooms are included in the analyses with grade Pre-K. EC students served in self-contained classrooms are excluded.

Change from CP 18-19 to CP 19-20 is calculated as a percentage point difference.

Continuation Rate Analysis

Student Movement in the St. Paul Public Schools

Percentage of students enrolled on October 1 of the first year who remained at the same school, moved to another SPPS school, or moved out of district in the following year, by grade in the first year.

The grade level analyses include all students enrolled on October 1 of the first year, including traditional and non-traditional schools. Because all grades are offered within the district, no students are excluded based on grade (except for grade 12), regardless of their ability to remain in the same school at the next grade level.
