

**601.00.1 SECONDARY CREDIT FOR JUNIOR AND MIDDLE SCHOOL STUDENTS**

High school credits taken in junior high or middle school are meant to meet the individual student's academic needs.

A student who takes a high school course while in middle school or junior high school will receive the high school credit for that course. To qualify as a high school course, the course must have the same syllabus and outcomes (standards) as the course offered as a SPPS high school course.

A student's high school transcript will show the qualified course(s) with the corresponding grade(s) and credit(s).
