## Positive Behavioral Interventions & Supports (PBIS)

PBIS is a framework that we use to create and sustain positive, effective and culturally-inclusive environments that support academic and social success for all students.

- All students and staff are taught the school-wide expectations.
- Students will receive frequent reviews of the expectations and be acknowledged when they demonstrate them.
- Most of the contact that students have with adults in the building is positive and prevents problem behavior from occurring.
- Staff will use data to help identify students who need additional support.
- A PBS school provides a consistent, predictable, and fair use of consequences for all students.

## Positive Behavior Support

I have reviewed the Positive Behavior Support Expectations Matrix with my child and have assisted him/her in understanding the importance of accepting individual responsibility for his/her actions.

As a parent, I realize the importance of supporting the staff and students at Wellstone Elementary School and pledge to guide my child in adhering to the expectations as outlined in the matrix.

## About PBIS

PBS stands for Positive Behavior Intervention Support. It is a program designed to teach respect, responsibility, and safety at school. At Paul and Sheila Wellstone Elementary School we hope to encourage students to continuously make good behavioral choices by implementing this program.

PBIS provides teachers and other school staff with information to help prevent behavior problems and help make school a safe learning environment.

PBIS is a research-based program which can result in:

- increased time for instruction
- an increase in positive behaviors school-wide
- a decrease in disruptive behaviors.
