November 30, 2020

Highland Park Senior High School Parents/Guardians,

I have an important update regarding applying for Free or Reduced Lunch benefits. The legislature extended the deadline application to January 4 so if you have not previously applied please do so no later than January 4.

Since we are not in school and students are not eating lunch in school it is very easy to forget to complete this application. It is extremely important that you complete the application if you feel your family qualifies. Completing this application will have your child eligible for free or reduced cost lunch benefits when school starts back in person. In addition, completing this online application, if you think your family qualifies, provides much needed financial funding for Highland Park Senior High School.

Please see the information on how to complete the application below. Contact your child's assistant principal if you need any help with completing the online form. Thank you for your time and consideration with this matter.

How to apply for free and reduced-price lunch?

- Applications can be completed
 - online at <https://www.schoolcafe.com/spps>. (Video Link: [SchoolCafe Eligibility Walkthrough For Parents](#))
- Please complete this application if you qualify by **January 4, 2021**.

Sincerely,

Dr. Winston H. Tucker
Principal
