I.B.P.Y.P.

Scavenger Hunt

How We Organize Ourselves
An inquiry into:
- Interconnectedness of human and communities
- Structure and function of human systems and the environment
- How humans use science
- How science impacts our environment

How the World Works
An inquiry into:
- Nature and how it works
- The interaction between nature and human societies
- How humans use science
- How science impacts our environment

Where We Are in Place and Time
An inquiry into:
- Personal histories
- The discoveries and explorations
- The migration of humans
- Interconnectedness of life and civilizations

Sharing the Planet
An inquiry into:
- Math and measurements
- How we share the resources of our planet with other people, communities, and other living things
- Interconnectedness between communities
- The place and complexity of resources
Find something that helps you stay organized at home.
Find something you would wear in the summer.
HOW WE EXPRESS OURSELVES

Find something that makes you feel better.
Find something that comes from an animal.
Find something that is important to your family.
