In 2003, the Northland Foundation and the five other Minnesota Initiative Foundations launched the Minnesota Early Childhood Initiative. Together, they are developing grassroots coalitions, made up of diverse community sectors, to strengthen local resources for young children and their families across the state.

The Getting School Ready in Minnesota Guide is part of a broader school readiness project developed by the Northland Foundation and the Northeastern Minnesota Early Childhood Initiative Regional Alliance. This Alliance is comprised of Aitkin County, Carlton County, Fond du Lac Reservation, Hermantown/Proctor, Itasca Area, Koochiching County, and Mesabi East School District Coalitions. Special thanks to the Alliance members who developed this guide. They include early care and education professionals from Early Childhood Family Education, Early Childhood Special Education, Family Services Collaboratives, Head Start, School Readiness, Child Care, and Ready 4 K.

Getting School Ready In Minnesota

• What do children need to be ready for kindergarten?

• What can families and caregivers do to prepare their children for kindergarten, while the school is getting ready for them?

Children learn through a variety of activities and experiences. While there is no perfect formula to know when a child is ready for kindergarten, this guide can be used by parents, caregivers, and teachers to make good decisions in preparing a young child for kindergarten. Checklists and helpful hints are provided in this guide to help you prepare a child to be a confident and successful learner.

Children benefit when their families participate and are involved in their learning and development. And yet, ALL – parents, caregivers, schools, and communities – contribute to the well being of children.
