Renewable Energy Challenge (REC) recruitment

Farnsworth Aerospace is looking for more talented 5th through 8th grade students to explore, create and test wind making machines. We are interested in problem solvers who work well with others. You have to want to work with your hands, cut, glue, construct and create. Be willing to make your devices better by using the engineering design process.

2019 REC Nationals in Houston, TX

We are meeting on Tuesdays and Thursdays.
If parents support we can do 3/5, 3/10 (TH/T) as these are conference evenings and there is no transportation or we cancel those dates. TBD.
The tournament is: Saturday April 25, 2020- You must attend!!!
Bigger goal: The national Renewable Energy Challenge competition in Denver, Colorado - June 2-4, 2020

IF interested See Mr. Barrett and Ms. Nina Nguyen
We start February 4!
Meeting held in Mr. Richards room- 406
