This image shows the equipment by age group and outlines the general level of challenge presented by the equipment. There is a spectrum of challenge in each structure as well.

5-12 equipment
Medium to high challenge

5-12 equipment
Ground level components

2-5 equipment
Low to medium challenge
Continuous playground structure and balance circuit provides a full spectrum of challenge and can serve the younger 5-12 age cohort as well.
The playground contains a number of accessible components presenting the opportunity for students of all abilities to engage with their peers.

The lighter area with cyan dots shows the footprint of the Poured in Place accessible surfacing; allowing access to a variety of ground level and elevated components. The balance of the surfacing shaded in tan, is Engineered Wood Fiber (wood chips).
