

What is a Family-School Compact?

A Family-School Compact for Achievement is an agreement that parents, students and teachers develop together. It explains how parents and teachers will work together to make sure all students get the individual support they need to reach and exceed grade level standards.

Jointly Developed with Parents

The parents of Benjamin E. Mays IB World School helped develop this Compact for Achievement. School wide meetings are held each year to update the compact. Parents are welcome to contribute comments at any time.

For more information on the 1st grade compact, please contact Karen Shanahan at Karen.shanahan@spps.org or 651.325.2400.

Communicating about Learning

Benjamin E. Mays IB World School is committed to communicating regularly with families about children's learning. Some of the ways you can expect us to communicate are:

- Weekly Highlights e-Mail
- Weekly Wednesday Packets
- Bi-Weekly Classroom Newsletters
- Teachers will give families their contact information at the start of the school year.

Do you have questions about your child's progress? Contact their teacher.

Activities to Support Partnerships

Conferences

November 15, 4:00-7:00pm
November 17, 4:00-8:00pm
November 18, 8:30am-3:00pm
March 21, 4:00-7:00pm
March 23, 4:00-7:00pm
March 24, 8:30am-3:00pm

1st Grade Compact

**Information to help your child
succeed in school**

Mr. Kirk Morris, Principal

Teachers, Parents, Students – Together for Success

District Goals

District Goals for Student Achievement

All students are at grade level and making growth in these areas:

- Pre-Kindergarteners on target in reading
- 3rd graders at grade level in reading and math
- 5th graders at grade level in reading, math and science

Decrease the gaps between student groups in:

- Grade-level learning, measured by MCAs
- Identification for Talent Development and Acceleration Services
- Referral to Special Education
- Absences
- Suspensions

School Goals

Reading:

The percent of student scoring proficient or higher in reading will increase from 19% to 38 % by Spring 2017 as measured by the MCA.

Math:

The percent of students scoring proficient or higher in math will increase from 20% to 39% by Spring 2017 as measured by the MCA.

Equity:

The percent of students who have had five or more out of classroom referrals in 2015-16 school year will decrease in 2016-17 year by 10% as measured by SWIS data.

In the First Grade Classroom

The first grade team will work with students and their families to support students' academic success. Some of our key connections with families will be:

- Provide parents with a Home Learning Kit which would include Sight Word Flash Cards and Math Flash Cards
- Provide links to math websites on the first grade page of the school website to help students practice addition and subtraction facts and coin valuation
- Classroom newsletter will alert families to what set of math facts the classroom is working on and suggest ways to work on them at home
- An *IB Programme of Inquiry* brochure will be sent home at the beginning of each of the 6 IB units
- First Grade will host an IB Showcase event inviting the community to school to explore one of their IB units

At Home

Benjamin E. Mays IB World School parents joined staff to develop ideas about how families can support students' academic success. Families may have other ideas to add to this list:

- Make sure you know which math facts your child is currently working on
- Practice with flashcards the teacher provides
- Visit the grade level page of the school website and check out the links
- Look in my student's backpack weekly
- Use coins at home. Parents can start by asking if child recognizes coin and value. Then move to having child show certain amounts
- Attend the IB Showcase event and look for the *IB Programme of Inquiry* brochures
- Visit the library
- Look for the *Weekly Highlights* e-mail

Benjamin E. Mays Students

Benjamin E. Mays IB World School students joined staff and parents to develop ideas about how they can succeed in school and reach for the stars. Students thought of the following ideas to make connections between learning at home and school:

- Work with flashcards at home.
- Count out change for my parents when we go shopping.
- Read for fun often.
- Bring our school and classroom newsletter and IB Programme of Inquiry brochures home and show them to my parents.
