Password:

Remember me on this computer.

[I cannot access my account](#)

You now have access to SPPS Apps for Education -- e-mail, Docs, and Calendar. These tools will allow you to communicate, collaborate, and share with your friends, classmates, and teachers, all from one convenient location from any computer with an Internet connection.

What is my user name?

Your user name has not changed. It is the same user name you had last year under the old SPPS student e-mail system.

How do I change my password?

Once you have logged in to your account, click on **Email**, then in the upper right corner, select **Settings**, select the **Accounts** tab, and click on **Change Password**. This will require you to enter your current password and a new password. After you have entered your old and new passwords, click on **Change Password**.

Who do I contact if I can't remember my user name and/or password?

Each building has a person who is in charge of resetting passwords. In most buildings, this is the building tech. Check with a teacher to find out who you contact in your building.

Security

Do not share your password with anyone else.
