IV. RECOGNITIONS

BF 31136 Acknowledgement of Good Work Provided by Outstanding District Employees and Departments

Bobbie Johnson, principal at Hamline Elementary and Jie Ming Mandarin Immersion Academy, for her work in the success of Jie Ming.

Principal Johnson started at Jie Ming in 2011 as a program coordinator with 20 kindergarten students and today has grown the school to about 234 students. She designed the curriculum and recruited the teachers and students. It is the most diverse Mandarin immersion school out of seven Mandarin Immersion schools in the Twin Cities. However, Jie Ming has had 100% proficiency on the MCA Math for two consecutive years making it the number one elementary school in SPPS, number three among 842 elementary schools in the state of Minnesota in 2016 and number six in 2017 as measured by both the MCA Math and Reading scores. Jie Ming has also met the State of Minnesota’s goal of reducing the achievement gap by 50 percent in both math and reading in 2017.

BF 31137 Acknowledgement of Good Work Provided by Outstanding District Schools
Open World Learning Community was recognized at the EL (formerly Expeditionary Learning) Education National Conference in Chicago, Illinois. Five other EL Schools were also recognized as "Credentialed" EL Education Schools. Of the 165 schools in the EL Education Network, Open World Learning Community is one of 33 schools recognized as a top performing EL Education School. EL Education originated in 1991 as a result of a national request for proposals from the New American Schools Development Corporation, which sought "break the mold" school designs.

BF 31138
Acknowledgement of Good Work Provided by SPPS Students

Keleenah Yang, a 12th grader at Como Park Senior High School and Chia Thao, a 12th grader at Highland Park Senior High School, for placing in the top 20 in the “Why Character Matters” essay competition with BestPrep.

Thomson Reuters sponsors the essay contest, in conjunction with the BestPrep Educational Forum. The Forum is a biennial event launched in 2008 to explore topics of current relevance for business and education. This year’s essay prompt challenges students to take a deeper look into the role of character development in their education. The top 20 student winners and their respective teachers attended a celebration reception with the Educational Forum keynote speaker Alan Page at the event on October 24, 2017.

BestPrep is a statewide nonprofit organization with a mission to prepare students with business, career and financial literacy skills through hands-on experiences that inspire success in work and life.

VII. COMMITTEE REPORTS

A. Committee of the Board Meeting of December 5, 2017

At the Committee of the Board Meeting on December 5th, Superintendent Gothard started the meeting with a brief update on his visits to schools, and common themes that are shared throughout the District. An expansive review will occur at the January Board of Education meeting.

SEAB provided an update on their largest current project – organizing student engagement organizations within schools. They are drawing inspiration from pre-existing structures, such as the student mentoring project at Johnson. This program has brought positive change to the school, and they aim to share the same positive experiences at other secondary and middle schools, while also expanding to elementary schools.

Board Members and the Superintendent then provided brief recaps on the Council of the Great City Schools Conference held in October in Cleveland, Ohio. Overall, it was a great experience to provide a national context for the work we do here in SPPS, and an opportunity for cross-pollination with other districts in the country. A SEAB alum, Misha Prasalov and coordinator, Shaun Walsh, provided an inspirational and memorable presentation on the importance of student voice at the conference as well.

An overview on human resources transactions was also presented, which was an opportunity for Board Members to do a deeper dive into the monthly report. This presentation sparked questions from the Board, including further explanation on administrative leave, accusations against employees, conversations before terminations, process for a lapsed teacher license, the role of seniority within the District, as well as the quantitative data behind job titles and responsibilities.

A report on literacy and the results of the FAST assessment were introduced. FAST is a screener that allows teachers to plan and to monitor the results of the literacy framework within their classrooms. Results, learnings and next steps for FAST and the data were also presented. The Board then requested more information on the capabilities of FAST, and it was explained that it is primarily focused on literacy, but will be expanded to a math-focus as well. The social-emotional capabilities of the program need to be updated before that functionality will be implemented. The Board also discussed the assessment of fundamental skills for school readiness, with the SPPS Discovering Our World curriculum that is rooted in social-emotional developments, as well as student voice on choice, PBIS frameworks, and other materials.

An update on the Personalized Learning through Technology was provided. The goal of personalized learning is to transform teaching and learning at SPPS to be student-centered, customizable, and technology-enriched to meet the diverse needs of all students. Positive impacts of personalized learning within the District, as well as with our community partners, were shared and demonstrated. Discussion on this topic involved the development of resources by dual immersion staff, as well as the capabilities of videos within the classroom. It also created a conversation on using PLTT resources to support parent involvement in the home for supporting basic school readiness skills for students. Personalized learning allows us to gain a comprehensive view of our students. Our kids are 21st century learners and looking through the lens of learning, all skills are wrapped around a child, including social-emotional and academics.

Finally, the Board examined the MSBA resolutions brought forth by the MSBA delegate assembly regarding the special education cross-subsidy that was discussed at the November Committee of the Board meeting. Proposed revisions included adding dollars per student to the resolutions, as well as the direct impact for SPPS specifically. Points on litigation, advocacy on this issue, and the need for this information to be shared with the community were also brought forth. The resolutions will be included as part of the agenda at both the December 2017 and January 2018 Board of Education meetings before being presented at the state and federal legislature in February.
MOTION: Ms. Ellis moved the Board accept the report on the December 5, 2017 Committee of the Board meeting and approve the minutes of that meeting as published. The motion was seconded by Mr. Marchese.

The motion was approved with the following roll call vote:

- Mr. Vue: Absent
- Ms. Vanderwert: Yes
- Mr. Schumacher: Yes
- Mr. Marchese: Yes
- Ms. Ellis: Yes
- Ms. Foster: Yes
- Mr. Brodrick: Yes

VIII. SUPERINTENDENT'S REPORT

A. Superintendent's Update

Dr. Gothard provided a brief recap and overview on observational activity so far. This presentation will include a high-level overview, with a more expansive report at a future meeting in the first quarter of 2018.

The goal within the past six months has been to become familiar with our stakeholders. It has been a great way to learn more about SPPS, as well as the community. It has helped to strengthen relationships, as well as to hear ways we are succeeding as a district, as well as the areas upon which we can strengthen. Every single parent wants their child to succeed, and it is exciting to work together to support that mission and dream.

**Listen**
- Visited 55 schools
- Held 12 Listen and Learn Sessions
- Community groups and task forces
- Onboarding with staff, departments, teams, and individuals

**Learn**
- Facilities Master Plan - more than bricks and mortar
- Partnerships – people want to help
- Audits – reviews of reports that look at how we can do things differently

**Lead – finding new ways to do things**
- Professional development
- Labor negotiations
- Early learning
- Examination of organizational structures that support student success
- Focus on building a strong senior leadership team

**Lead: Strategy Development Process**

The strategic plan is underway and there will be periodic updates. The below is a very small section of a high-level look at the plan. The Greenway Strategy Group will be assisting with this work.

**Analysis | December - January**
- Tasks include:
  - Environmental scan
  - Engagement with additional key informants
  - Community input survey
  - Present findings to district leaders, Cabinet, and Board

**Strategic Development | February - June**
- Tasks include:
  - Development and presentation of draft strategy components
  - Community input sessions
  - Present final long term outcomes and strategic themes
Present initiatives to Board
- Action Planning | June - December
  - Tasks include:
    - Initiative Action Teams plan Phase 1 initiatives
    - Launch full strategic plan to Board and Community
    - Develop outcomes scorecard and implementation monitoring system

Lead: New Processes in Place
- Budgeting – making decisions sooner to provide schools and earlier start to 2018-19 hiring
- Reorganized Board and Superintendent collaboration

Amazing things happen every day in each school. Our students are happy, our teachers are happy, and people in our buildings are happy. We have many volunteers in our building. Many of retired staff come back to work in our schools and buildings.

SPPS is positioned well to move into the next phase. The strategic planning process is important to provide a focus before making big changes, and an in-depth report will be presented in the first quarter of 2018. Superintendent Gothard thanked everyone for their hard work during his transition and work in making SPPS function to the best of our abilities.

QUESTIONS/DISCUSSION: None

B. Enrollment Report
Enrollment for the 2017-2018SY is 37,128, which is an increase of 88 students from the 2016-2017SY. SPPS enrollment is 549 above projections.

The concepts of enrollment for the purpose of reporting were then reviewed.
- **State-Funded Enrollment:** the number of students for which SPPS received general education revenue; most commonly discussed; impacts budget and planning
  - **2017-2018SY state-funded enrollment is 37,128 students**
  - The state-funded enrollment trends were then presented, with the trends of enrollment starting in the 2008-2009SY.
  - The SPPS enrollment by grade was also presented for the 2017-2018SY for grades ECSE to 12.
- **Projected Enrollment:** the calculated estimate of how many students we will have in the district and at each school; methods-based; procedural; used as a basis for budget; very sensitive to system changes
  - **2017-2018SY projected enrollment was 36,309 K-12 students**
  - The SPPS projections have been consistent across time with a range of -2.1% to 1.5%.
  - The trend of projected enrollment was then presented for 2008-2009SY to 2017-2018SY.
  - The projected to state-funded trend comparison with grades K, 6, and 9 was also presented, as well as overall.
  - SPPS state funded enrollment (no PK) is 36,858 (549 students above the projected enrollment of 36,309)
- **Total Enrollment:** the number of students served without regard to general education revenue.
  - **2017-2018SY total enrollment is 38,396 students in PK-12.**

The overall trends of enrollment were then presented. There were declines from 2008-1009SY to 2011-2012SY, with fluctuation between 2012-2013SY and 2014-2015SY. There was a decrease from 2015-2016. With the 2017-2018SY enrollment increase, this could be an anomaly or the beginning of a different pattern. Overall enrollment factors include the number
of births, natural increase/decrease, and enrollment out of the district. The Birth to Kindergarten based on Saint Paul Resident Live Birth rate for September 1 to December 31, and January 1 to August 31 was presented, with the highest rates 2005-2008. The natural increase/decrease trend report was also discussed, with the number of students entering kindergarten versus the number of students graduating the 12th grade. There were three years of increases over 300, followed by three years of increases less than 300. The trends for Enrollment Out of District were also presented showing that SPPS out of district enrollment has an increasing pattern that is not mitigated by the number of students enrolling in SPPS from out of the district, with the largest loss in charter schools.

The trend in grade levels was also shown. They manifest over time creating waves with students continuing in the district. In Kindergarten, the highest wave was in 2013-2014 and 2012-2013, however births are returning to their pre-2013 patterns, which will decrease the “kindergarten pool.” The trends for Grade 6 and Grade 9, where there are common transitions, were also displayed.

Trends in programming were also indicated, with S-Term increasing from 9,637 in SY2017 to 9,731 in SY2018. Trend in race for SPPS students were also shown with 79% students of color; all schools have racial diversity. Percentages of students receiving special education services has declines for the past three years, with all schools having students receiving special education services. English language learners compose a large part of SPPS enrollment. If the SPPS EL population was a district, it would be the 8th largest district in the state.

Overall, trends to watch are declining overall enrollment, uneven cohorts in grade levels, pathways continuation from grades 8 to 9 increasing, and continual racial/ethnic, linguistic, and service-type diversity of student population across the district. The potential impacts of each of these trends were also shown and discussed.

QUESTIONS/DISCUSSION:

- In developing the projections used for budgeting, was there a decision to be more conservative or to emphasize the trends? Answer: The projections process is methods based and procedural. The important note is that projections are historical, and our methodology is based on the “cohort survival rate”, which is based on the way enrollment has behaved in the past. Projections from last year were fed into the projections for the 17-18SY.
- With Truth and Crosswinds closing, were those figured into the projections? Answer: Our projections are based on the pool of students, and we cannot deviate from that final number. We cannot project societal context, which is why our projections are sensitive to policy decisions. We cannot project if another school or charter school closed, however we are happy to see if there was an impact to our enrollment. There are other intentional efforts with partnerships for students enrolled in the district. The closing of Truth Academy cannot be included in our projections; if our partnerships around enrollment did help at K or 9th grade enrollment numbers, it is figured into the next year’s projections.
- Do we disaggregate our SLIFE students, and can we tell if there has been an impact yet from the national actions on our new immigrants? The ELL population is growing. Do we have that broken out to understand if that has had an impact on us yet? Answer: We do disaggregate and report to the Department of Education our number of SLIFE students. We cannot project our SLIFE students. We do see changes and trends and relate them to our student groups in regard to state or national policies, in particular to MLL or immigrant groups moving to the area.
- When will you know about the impact from the most recent immigration policy? Answer: We will not know until those policies are implements; right now many of them have guidance, but the policy itself is not implemented. If the policy is passed, and we start to see changes in the state, region, and city, then we will see those changes in the District. Waves in the society in regard to immigration patterns do change the behaviors.
of families. Sometimes we may not have the most accurate data from our families due to the tone of the policies at the time.

- In thinking about the decline of 5th and 6th graders, is the trend for that being the age group or capacity related? Answer: From the data, it is not related to capacity. The trends show the increasing decline. They don’t necessarily show the association with the decline.
- When looking at students in special education and the decline, does that correlate to the change in policies in how we identify our students in special education and what does that look like? Answer: Yes, programmatic decisions directly impact the percentage of students. We have considered the decrease in students that receive special education as a good thing; we have thought our percentages were high in the past. Even though the percentages are decreasing, and we are happy with that decrease, the scale of how we support students with special needs is across the District instead of isolated in areas.
- When we look at those students in open enrolling or leaving the District, do we categorize those students into groups such as special education, or ELL? Answer: REA has not done a full analysis in the past, but do respond to particular questions, so we do know somewhat of the reasons for students not enrolling in SPPS. We can get some student characteristic who are leaving, so we do know race, grade level, and school.
- We are funding services for students with special education services in other schools. How do we track them, and where do they fall in the enrollment numbers? Answer: They are enrolled in the district, they are in the student information system, our MARRS file, and they would have a school code. In terms of the enrollment, they may be included in different areas based on the school code. They would fall into total enrollment or state funded enrollment.
- REA and Special Education can look into the number of students who are enrolled in other schools, but receiving services from Saint Paul Public Schools, such as special education service.
- In the changes in the size from the 6th grade or the 9th grade, is there a way to see the grade level of the proportion of students changing over time to get a sense if we are seeing a consistent drop at transition points? That would be interesting information for the future.

C. Human Resource Transactions

CONSENT AGENDA ITEMS PULLED FOR SEPARATE CONSIDERATION:

BF 31156 DNS and DHCP Replacement

A Board Member reiterated that this system is a necessary purchase to do our work, which is in the world of technology. To clarify, the system that we had is outdated and we need to buy something better? Answer: Correct, the current system is about 9-10 years old. It also managed our internal communications
for our network. It should have been replaced a while ago. We have moved to find a more suitable solution
for it.

The Deputy Director of Technology Services, Idrissa Davis, then went on to note that with the budget cuts,
we have a smaller staff. One of the solutions to support our staff is to ensure we have push-button, turn-
key solutions. This solution will allow us greater management of the current systems, and makes our jobs
easier, while providing stability. A lot of it is to ensure the ability to provide core services and 99.99% uptime
goal for all systems.

MOTION: Mr. Brodrick moved the Board of authorize administration to approve the proposal
from Insight, for the purchase of replacing DNS and DHCP system in the amount not to exceed
$200,000. The motion was seconded by Ms. Ellis.

The motion was approved with the following roll call vote:

BF 31157 MacBook Fair Market Lease Purchase Agreement

It was noted that this issue was discussed at a previous Committee of the Board meeting with questions,
and it is now coming before the Board for final approval.

The Deputy Director of Technology Services explained that the lease on the MacBook laptops is coming to
an end, and like the previous action on the iPads, and one of the recommendations is to buy-out those
devices, and then go to a bid process, sell those devices, and use the proceeds to pay off additional lease
expenses. Hopefully we will have additional funds to put towards the PLTT.

These computers are being used for teachers and District instructional staff. We are trying to remove some
of the inequities found through the last lease, and to get these devices into the hands of more staff
members.

He went on to note that he asked the question, “Can our instructional staff get through with just iPads?”
Input from the staff at schools was then compiled. The MacBook is part of the workflow in their day-to-day
practice. They also do a lot of work on the MacBook in preparation for instructional work through the iPads.
At this point, it would hurt productively and interrupt their workflow if the MacBooks were removed.

- Is every teacher in SPPS going to get a new laptop? Answer: Pretty close.

This money will come out of PLTT referendum to “revolutionize the way we deliver education to students in
the 21st century.”

MOTION: Mr. Brodrick moved the Board of Education to authorize the Superintendent to sign
the attached MacBook Fair Market Lease Purchase Agreement. The motion was seconded by Ms.
Ellis.

X. OLD BUSINESS
A. Pay18 Levy Presentation and Certification

**BF 31158** Action on the Pay18 Levy

The purpose of the presentation was to present the Pay18 levy proposal to the Board of Education for final certification.

The Chief Financial Officer stated school levy authority is established in law. School budgets are a combination of State, Federal and local funding, including the voter approved referendum. The Pay18 school levy funds the 2018-19 school year. Levies are approximately 20% of the SPPS budget. Districts receive payments after the May and October tax collections from the County. The Levy can only move down after October 1.

The Pay18 Levy Calendar was then reviewed. The Board of Education will vote to certify the Pay18 Levy at the December 19th Board of Education Meeting, and SPPS will certify the Pay18 Levy to Ramsey County on December 31st.

B. Board Policy Updates

**BF 31159** THIRD READING: Board Policy 508.00 - Students with Individualized Education Plans (IEPs)

**QUESTIONS/DISCUSSION:**
• The Board commended the work of Assistant Director Jackie Allen and the work of the committee, as well as the involvement of the parents. This is a vastly approved document, and a really important opportunity for us to speak to the value we place on education for our students in the program.

MOTION: Mr. Schumacher moved the Board approve the updates to Policy 508.00 - Students with Individualized Education Plans (IEPs). The motion was seconded by Mr. Marchese.

The motion was approved with the following roll call vote:

- Mr. Vue: Absent
- Ms. Vanderwert: Yes

BF 31161 THIRD READING: Board Policy 510.00 – Graduation

In the discussions around this policy in the past, there was concern if too much responsibility was being placed on the graduation coordinators in the reviewing of adornments. To that, we have received the feedback from graduation coordinators and principals. Feedback and responses were reviewed. To address this concern about principals and coordinators being places in difficult situations, the procedure is being updated to include additional support for the schools. It is suggested that graduation coordinators work with students to approve the identity adornments; if there is an appeal by a student, that is then escalated to a principal. If the graduation coordinator and principal do not feel comfortable making it decision, it can then go before the District-Wide Graduation Committee for further support. If it needs to be taken to another level, the Assistant Superintendent is willing to make a final decision. The supports are in place in order to ensure school personnel feels supported.

QUESTIONS/DISCUSSION:

- SEAB members noted that this is important to SEAB, and they have personal experience and knowledge with this policy. They feel this is something that will really help students understand each others cultures and feel comfortable in expressing their identities at this important step in their life. They feel strongly that this is a positive change and are excited for it.
- A Board Member noted that he appreciates the changes that addressed his concerns. He then read a short statement, and noted that while the spirit of his concerns were addressed, he did want to note that he is not particularly in favor of this policy change.
MOTION: Mr. Schumacher moved the Board approve the updates to Policy 510.00 – Graduation. The motion was seconded by Ms. Vanderwert.

The motion was approved with the following roll call vote:

C. MSBA Resolutions

BF 31162 MSBA Resolutions Regarding the Special Education Cross-Subsidy at the Upcoming Legislative Session

The Legislative Liaison spoke on the state and federal resolutions from MSBA, which were previously discussed at a previous Committee of the Board meeting. Director Ellis’ involvement in these resolutions at the MSBA Delegate Assembly was acknowledged and commended. The special education cross-subsidy formula for students across the state has become one of the most pressing issues for districts across Minnesota. The costs are becoming prohibitive because the formula is not keeping up with it. The federal government and state formula are not cutting it. The special education unfunded formula by 2021 is estimated at $806 million, which is the amount that districts are spending from their general fund to provide the mandated services and due process. The two resolutions are to call on Congress to meet its obligation for funding, and the second calls on the state legislature and the Department of Education to come up with a task force to take a serious look at the special education formula, and look at all aspects to make a recommendation to eliminate the cross-subsidy over a 3-4 year period.

QUESTIONS/DISCUSSION:
- The fiscal solvency and services provided to students should not be pitted against one another. The state has an obligation under the law to fully fund special education; that is an obligation that is clear and it is impacting our kids, both those who need the services and served by our district as a whole. Bargaining units may also advocate for these resolutions.

MOTION: Mr. Brodrick moved the Board of Education to approve the resolutions of the Minnesota School Board Association regarding the special education cross-subsidy at the upcoming state and federal legislative sessions. The motion was seconded by Ms. Ellis.

I. CALL TO ORDER

The meeting was called to order at 4:30 p.m.

II. AGENDA

A. Superintendent’s Update

Superintendent Gothard started the meeting with a welcome to new board member, Marny Xiong. There will be a farewell ceremony for Chue Vue following the Committee of the Board Meeting.

A Listen & Learn session was held at Highland Park Middle and Senior High, where about 70 students shared their vision for not only their school, but also SPPS. Their speaking points involved extracurricular activities, sports, among other issues and experiences they encounter each day. Our students are incredible in their commitments and their pursuit of excellence, and they need support to continue. It was overall a great meeting with goals to accomplish and how to move forward while keeping the focus on the needs of our students.

He also provided a recap on the Inauguration Ceremony for Melvin Carter, Mayor of Saint Paul, who is a graduate of SPPS. It was held at Central High School and was a successful event. It was great to watch the community engage in meaningful ways, and to come together to celebrate our new mayor and our city. He also thanked everyone who helped in the event.

Superintendent Gothard also provided clarity to questions asked on the Enrollment Report presented at the December 19th Board of Education Meeting. When we analyze state funded enrollment, we showed an increase of 88 students from 16-17 to preliminary 17-18. This number is important because it is certified to the state for revenue. Our number of students was more than 500 more than our projections, meaning that we are tracking to receive more than what was approved for the budget in June, and will be revised at an upcoming meeting. These are important numbers in terms of revenue from the state in both actual and plans. When PreK and early special education students are removed, the result is a -202 students. Typically we have not used that number in reporting. There are two reports – one is K-12 only, and the other would include other factors. It’s important we use the number to state for revenue, as well as looking at other indicators of where the district is meeting those factors. There are different indicators within the district. These trends are important for planning and ensuring we communicate clearly.
with our community in terms of budget, planning, and revenue, but also where we have room to grow.

B. SEAB Presentation – “ Expanded Student Voice”
SEAB Members presented research and findings from their project, “A District-Wide Structure for Authentic Student Voice” to propose an expanded model of authentic student voice for Saint Paul Public Schools, and to ensure the concerns of students are heard by creating a new structure of student engagement.

- Project Research Models
  - Building survey to all SPPS principals
    - 22/54 building leaders responded
  - 7 Expert Interviews
  - 11 Focus Groups with 200 students (elementary through secondary)

- SEAB Values
  - Inclusivity, Authenticity, Collaboration, Shared Power, and Consistent Structure

- A video on SEAB’s vision to revolutionize the way we work together was shown.

- SEAB’s impacts to date include changes in discourse, practice, and policy.

- Intended Impacts of an Expanded Structure
  - In focus groups, students predicted that the impacts of authentic student partnerships in all schools would include:
    - More leadership opportunities
    - Stronger sense of community
    - More role models
    - Safer, more welcoming environment

- Student focus groups and expert interviews both agreed that components of student voice are inclusiveness, shared power, engagement, safe spaces, and being authentic.
  - Inclusive: amplify all voices; all are invited; free of judgement, diversity
  - Shared Power: students know their truth; everyone’s expertise is at the table; everyone is a powerful problem solver
  - Engaging: everyone is a leader and mentor of one another; work is meaningful and fun
  - Safe space: a space to speak your truth, multiple truths are seen and valued; respect towards one another
  - Authentic: consistent; there is follow through on the part of staff; everyone is a leader good communication

- Expanded Structure: Building leaders said they need:
  - Staff, Time, Resources (training and support), Flexibility, and Consistency
  - 50% - Building leaders who have an existing structure or group
  - 27% - Working on it
  - 14% - Interested
  - 9% - May not be interested

- Visuals of SPPS Students Voice Structure Today compared to the Proposed Structure of Student Voice were presented.

- Structural Goals and Resources Needed
  - Increase student voice (consistency)
    - Shared values, staff time, training supports and funding to support
    - Mechanism for students to meet during school
  - Increase District-Wide Connectedness
    - Dedicated staff time
    - District-wide “Summer Summit”
  - Increase Communication
    - Dedicated staff time
    - Website

- Ideas on Embedding Student Voice
  - Component of strategic plan
Seen as a key aspect of SPPS’ equity work
- Included in School Improvement Plans
- Ideas from others

**QUESTIONS/DISCUSSION:**

- In dealing with different age groups, one of the initial thoughts around elementary schools. What is the best way to work with students of that age and to help them think about this? From your experience, would there be a lot of preparation for conversations with those students, and what are your reflections on expanding their voice? Answer: From the focus groups, we think students are very engaged and already have a voice, but it’s not being heard, or loud enough, or amplified enough. With elementary students, we need to work with them to determine what they are looking for in their schools (examples: more time to interact with friends, or learning outside of classroom). Overall, if they have the idea that their voice will be heard, they may have more motivation to act upon their voice.

- In terms of structure, how do we create supports in terms of the elementary context? Student councils and structures are traditional in secondary grades. Are there or have you read about structures that might be conducive to those kinds of approaches? Answer: There are similar structures in Chicago Public Schools that mirror SEAB’s vision. That would need to be further researched, however it is successful in those schools. Structures will need to be flexible and tailored. We want to work individually with building leaders and shape structure to their school so it will work best for their students. Maxfield and Chelsea Heights are working on it this year, with other schools to follow. Embedding authentic student voice in schools is important because there is a difference in a student going to school because it’s a requirement, and a student who actually wants to go to school because there is a sense of community and that they belong.

- How do you hope to see the daily interactions between groups? Answer: It will rely on individual schools. We would like to look to groups like SEAB and Dare To Be Real to look to the higher-ups in their schools for ways to changes. Building leaders can also bring their ideas to SEAB, and then to the Board of Education. Facilitators will need to work closely together to accomplish this.

- From the focus groups or surveys, were there specific obstacles that people mentioned that impeded the ability for active student voice to happen? Answer: In some groups, the teacher was present in the room, which may have had an impact. Students are engaged in talking about student voice, but a teacher may be one of the problems in why their voice is not being heard. One way to overcome this is to build better connections with students and teachers. It also ties back to sharing power. In a student group, there is generally a staff member there to support that group. A structure with no hierarchy is important in these groups, as well as to have a good relation with staff to share that power.

- One of the important factors involves safe spaces. In the spaces during the focus groups, how many adults were present, and how many students were present? What was the dynamic? Answer: In some focus groups with student leadership groups, only the staff leader was present. At other focus groups in middle schools, there were no adults besides a SEAB facilitator, which helped to make those students feel more comfortable and be more authentic.

**C. 2017 Audit Report**

The Chief Financial Officer introduced representatives from the accounting firm, MMKR to present the final results of the FY2017 audit report.

- Three reports were shared with the Board:
  - Annual Financial Statement
  - Special Purpose Report
  - Management Report
• The role of the auditors was reviewed. The financial statements are the responsibility of the District, with the auditors issuing their opinion on the statements. Auditors also test the internal controls and compliance of the District with the Financial Statement Audit and the Minnesota State laws and regulations.

• Audit results:
  o MMKR issued an unmodified, or clean, opinion on the basic financial statements.
  o For the internal control and compliance reports, there were four comments to note.

• The General Education Aid basic formula allowed, which is the largest funding source for the District from the State of Minnesota, was reviewed. For 2018, there was a 2.0% increase.

• The state-wide unrestricted operating fund balance as a percentage of operating expenditures for SPPS versus state-wide was reviewed, with SPPS at 14.2% for FY2017. For FY2016, SPPS was at 13.0% compared to 20.7% as the state-wide average.

• The cash and investments, unrestricted fund balance, and annual expenditures of the General Fund were also presented, as well as the financial statement.
  o In 2010-2012, there have since been changes in cash flow due to how the state was metering state aid payments to school districts. At one point, they were at a 60/40 pay schedule, where the district would receive 60% in the year it was earned, and then 40% the next year. It didn't have an impact on fund balance, but did have an impact on cash flow at those times.

• The fund balance percentages were presented. Some nuances have changed in terms of the general fund, in particular the Long Term Facilities Maintenance Fun, which was previously a separate fund, but has now been largely rolled into the General Fund. For FY2017, the unassigned fund balance as a percentage of expenditures was 5.7%, which was very close to the projection of 5.8% previously presented to the Board in updates, and keeping within the 5% policy.

• The Adjusted Daily Membership and pupil units served were shown and discussed, with the percentage change in ADM and pupil units served.
  o In 2015, the legislature made a change to how they were weighting pupil units in an effort to ease the difficulties in the reporting of Minnesota school finance. School districts did not have a reduction in funding, there had to alter the formula allowance. The basic formula was adjusted to account for those pupil units. It is a reflection that is seen across all districts because of the legislative reductions, and not a reflection of SPPS.

• The other governmental funds for food service special revenue and community service special revenue funds were presented. The Food Service Special Revenue Fund financial position has improved significantly. The Community Service Special Revenue fund also saw an increase.

• A district-wide statement of net position was also presented, with the total net change in position from 2016 to 2017 being $(-45,892,000).

QUESTIONS/DISCUSSION:
• Where is the happy place in terms of those numbers for special revenue funds? How do you measure the sense of security in those numbers? Answer: The rule of thumb when looking at operating funds, GFOA or ASFO will look at 5% to 10% as a general rule of thumb, or 1-2 months, which will give 8% to 17% as percentages. With the food service and special revenue funds, they also have differences in caps. The food service special revenue fund has a cap of 3 months of operations using a 9-month measurement period. It becomes concerning when the percentage is at the 33% range, because then federal funding may be reduced. MDE also recognizes that we may accumulating resources for a one-time cap for purchases. In the past, we have also invested in cafeteria equipment.

• In looking at the $5,711,000 for the Food Service Special Revenue Fund, how do you think about what to invest based on that number? Answer: We look at past trends and what we have been comfortable at in terms of revenue, and we also look at projections for next year.
and fund balances. As we go into the next fiscal year, we also look at costs and ending fund balances, and to see the impact negotiations will have on those balances. In terms of the Community Service Special Revenue Fund, light rail affected Community Ed. for some time; it is now coming back from the hit taken a few years ago. Overall, we look at trends of students and population.

- It was also noted that within Community Service Special Revenue Fund, it is further broken down by programs. At a 25% fund balance, it starts to draw red flag. There was once cap at 25%, which is not currently in place, but if it would become a cap again, that may be one place they would look based on history.

III. ADJOURNMENT

It was motioned to adjourn the meeting at 5:19 p.m. The motion passed by acclaim.

Respectfully submitted,

SCHOOL START TIMES 2019-20

Implementation Planning Update

Jackie Statum Allen – Assistant Director, Strategic Planning and Policy

Regular Board of Education Meeting
January 30, 2018
Purpose

The purpose of this presentation is to provide an update on planning underway for the school start times change in September 2019.
Start times change for 2019-20 school year

• SPPS is preparing to restructure school start times beginning September 2019
• Board voted for the restructure in October 2017
• Change allows for more secondary schools to start later
Committees Working on Implementation

• Four committees are preparing to implement the start times change
• District Committee for Start Times Implementation
• Three subcommittees to address key challenges
  – Childcare
  – Safety
  – Athletics
Childcare Subcommittee

- Identify childcare options for elementary students at schools that will transition to a new 2:00 p.m. dismissal time

- Analyze current childcare locations and capacity of existing providers

- Make recommendations to support students and families
Childcare Subcommittee

- Members of the committee include:
  - Representatives from SPPS Discovery Club, Extended Day Learning, and Family Engagement
  - Saint Paul Parks and Recreation
  - Sprockets Saint Paul
  - Private and non-profit childcare providers
Safety Subcommittee

- Support elementary students and families at schools that will transition to a new 7:30 a.m. start time

- Study the safety of bus stops and travel paths

- Make recommendations to support students and families
Safety Subcommittee

- Members of the committee include:
  - Representatives from SPPS Transportation and Facilities
  - Saint Paul Police Department
  - Saint Paul Public Works
  - Community partners
Athletics Subcommittee

• Assess scheduling challenges resulting from later dismissal of secondary schools

• Identify game and practice space for all sports teams

• Propose guidelines for scheduling that reduces early dismissals for student athletes
Athletics Subcommittee

- Members of the committee include:
  - Representatives from SPPS Athletics and Facilities
  - Saint Paul Parks and Recreation
District Committee for Implementation

- Advising the work of the subcommittees
- Providing a comprehensive support system for changing school start times

- Members of the committee include:
  - Leads from each of the subcommittees
  - Office of Communications
  - Office of Family Engagement
  - Assistant Superintendents

Early College
Board of Education Presentation
January 30, 2018
“I will have 67 college credits when I graduate from AGAPE -- I'll receive my AA degree before my high school diploma. This spring I’m taking the Certified Nursing Assistant (CNA) class at St. Paul College because I want to go to medical school.”

-Kathy, Class of 2017, AGAPE High School
One year later...
“I did PSEO for two years, full-time, as a high school junior and senior; and it really helped me prepare, to know how to study, to know what to expect from college.

My future plan now is to go to law school and become an immigration lawyer.”

-Kathy, University of Minnesota Junior and 2017 AGAPE High School graduate
Early College in SPPS

**Mission:** Empowering each SPPS student by expanding opportunities and eliminating barriers for career and college success.

**Vision:** A strategic, PreK-16 system-wide alignment designed to expand college credit-earning opportunities and career pathways for high school students by increasing supports that will better prepare our scholars for achieving post-secondary success in college and/or career.
Benefits to Early College

- Early College focuses on increasing access and opportunity to earn college credit in High School for all students
- Early College includes improved support and preparation for traditionally underrepresented students in college credit-earning opportunities
- Success in Early College courses leads to increased belief in one’s potential to succeed in post-secondary or training after high school
- Early College courses offer students preparation for the rigor of a college course and may eliminate the need for remedial courses in college
- Opportunities for students to earn free college credit while in high school, can lead to significant financial savings
- Students can explore careers, earn industry certifications in preparation for a future career

Advanced Placement (AP)

Song Lee
Senior, Como Park Senior High School
Advanced Placement

Advanced Placement (AP) offers college-level courses, taught by certified AP teachers, to high school students. Students take an end of course AP exam, where based on their score can earn free, transferable college credits or course placement.

Advantages of AP

- Allows students, with “passing scores”, to place out of introductory college courses and/or earn college credit; “passing scores” are widely accepted by most private and public schools
- School districts retain state and federal funding
- Taught at high school by certified AP teachers
- AP courses offer students preparation for the rigor of a college course
- “Non-passing” test scores not part of college transcript
Aye is taking classes through Saint Paul College to receive a nursing assistant certificate.

“I like learning the skills. We have 58 skills we need to learn before we can get our certificate, skills like bed making, denture care, dressing patients.

I’m not 100 percent sure what I will do in the future. I might be a nurse because I want to go back to my country and help my people. My first goal is to be an interpreter - so I could do both. After getting my nursing assistant certificate, I’ll work two to three years to save money and then go to Saint Paul College.”

- Aye, Senior, LEAP High School
Career and Technical Education

Career and Technical Education (CTE) in SPPS includes Career Pathway Academy (CPA), Career Pathways, and Project Lead the Way (PLTW), and articulated college credit in individual CTE courses.

Career Pathways are a series of courses that provide high school students the opportunity to explore careers in a hands-on learning environment. Classes are augmented by workplace visits, internship opportunities, and paid work experiences for students. Career Pathways in Saint Paul Public Schools include:

- Aerospace and Engineering at Johnson High School
- Business/Finance at Como Park Senior High School
- Construction at Central High School
- Information Technology at Humboldt High School
- Saint Paul High School Automotive Center
- Welding at Humboldt High School
Career Pathways Academy (CPA)

Chao Xiong
Senior, Harding High School
Career Pathways Academy

Career Pathways Academy (CPA) provides 10th - 12th grade students the opportunity to take free, college courses at Saint Paul College. Transportation to and from Saint Paul College is provided to students. Courses include: Business, Computer Repair, Computer Fundamentals, Nursing Assistant, and Web Design.

Advantages of Career Pathways Academy

- Students can earn free, transcripted Saint Paul College credit
- Some courses provide industry certification
- Courses occur both during and outside of the regular school day
- Available to students at all SPPS High Schools.
- Prepares students for high wage, high demand careers
Academy of Finance (AOF)

Mario Sanchez
Senior, Como Park Senior High School
Career and Technical Education in SPPS

Academy of Finance at Como Park

Academy of Information Technology at Humboldt

The Academy of Finance at Como Park High School and Academy of IT at Humboldt High School increase college and career readiness through learning opportunities, internships, mentorships, and work experiences in the fields of IT and Finance.

Advantages of Career Academies

- Students can earn up to 16 articulated and concurrent college credits at Saint Paul College
- AOF students can earn a Business Certificate from Saint Paul College
- Students are part of a smaller learning community through all 4-years of high school
- Classes occur at high school; school districts retain state and federal funding
- Prepares students for high wage, high demand careers
- Currently funded by Federal YCC grant (ongoing funding must be pursued)
Construction Pathway

Millenium Amha
Junior, Central High School

Devon White
Senior, Central High School
Career and Technical Education in SPPS

Construction Pathway at Central High School
Welding Pathway at Humboldt High School

The Construction Pathway at Central High School and Welding Pathway at Humboldt High School increase college and career readiness through hands-on learning opportunities, internships, mentorships, and work experiences. New pathways under development are:

Agriculture Science at Highland Park
Medical Pathway at Humboldt High School

Advantages of Career Pathways

- Students can earn free, articulated Saint Paul College credit
- Each Pathway provides industry certification
- Classes occur at high school; school districts retain state and federal funding
- Students are part of a smaller learning community
- Prepares students for high wage, high demand careers
- Currently funded by United Way grant (ongoing funding must be pursued)
Project Lead the Way (PLTW)

Scott Schaffer
Teacher, Johnson High School
Project Lead the Way (PTLW) offers courses where students learn about engineering before starting their post-secondary education or career.

PLTW end of course exams may lead to free college credit or preferred admittance at a limited number of institutions, credit or preferred admittance is determined by the individual post-secondary institution.

Advantages of PLTW

- High rigor courses that offers students opportunity to take college-level courses
- “Non-passing” test scores not part of college transcript
- Taught at high school by certified PLTW teachers
- School districts retain state and federal funding
College-Level Examination Program

*College-Level Examination Program (CLEP)* provides students the opportunity to earn free college credit by earning a “passing score” on a 90-minute exam. *CLEP* exams are offered in 33 areas in subjects ranging from math to languages and allow students, with passing scores, to place out of introductory level college courses.

**Advantages of *CLEP***

- MNSCU schools are required to give college credit for “passing scores”
- Teachers do not need to be credentialed to prepare students for exam
- SPPS has two approved CLEP Testing Centers
- “Non-passing” test scores not part of college transcript
Concurrent Enrollment allows eligible Saint Paul Public Schools students the opportunity to take free Saint Paul College and Fond du Lac Tribal and Community College courses on their high school campus. Students who take Concurrent Enrollment courses earn both high school and college credit in their courses.

**Advantages of Concurrent Enrollment**

- Students can earn free, transcripted credit with partner institutions
- Classes occur at high school; school districts retain state and federal funding
- Courses are taught by SPPS Teachers who are approved by partner institution
- Credits can transfer, pending transfer credit policies (guaranteed transfer within MnSCU schools)
- Flat fee of $3,000 for per teacher who teaches Concurrent Enrollment courses, a portion of this fee is reimbursed
“My College in the Schools (CIS) classes are very difficult, but they are also doable. Because I am able to challenge myself now, hopefully in the future it won’t be as hard. CIS really pushes you out of your comfort zone to learn as much as you can.”

- Tina, Senior, Harding High School
Concurrent Enrollment / College in the Schools

*CIS (College in the Schools)* allows students to take free college level courses and earn free college credit at the University of Minnesota through Concurrent Enrollment. Students who take CIS classes earn both high school and college credit in their courses.

**Advantages of CIS**

- Students can earn free, transcripted University of Minnesota credit
- School districts retain state and federal funding, taught at high school
- Credits can transfer, pending transfer credit policies
- Courses are taught by SPPS Teachers who are approved by the UMN

Gateway to College

Kamarah Short and Justin Marschinke

Students, Gateway to College
Gateway to College

*Gateway to College* provides students who have dropped out of high school or who are off-track to graduate an opportunity to earn their high school diploma while concurrently beginning their college experience. *Gateway to College* students spend their entire day at Saint Paul College where they take high school courses taught by SPPS teachers and college courses taught by Saint Paul College faculty.

**Advantages of Gateway to College**

- Students earn their high school diploma while earning free Saint Paul College credit
- *Gateway to College* provides students with thoughtful supports beyond academics
- Students scoring below college ready can access developmental college courses
- Students do not pay for tuition, fees, required books or supplies for courses
- Learning environment is on a college campus
International Baccalaureate (IB)

Nongnut Thao
International Baccalaureate Diploma Candidate
Senior, Highland Park Senior High School
International Baccalaureate (IB)

International Baccalaureate offers students pre-college courses designed to challenge students thinking about their community and world. Students take an end of course IB exam, which may lead to earning free college credit or course placement based on exam score. Students can also earn an IB Diploma by taking end of course exams paired with presentations and projects.

Advantages of IB

- IB courses offer students preparation for the rigor of a college course
- “Non-passing” test scores not part of college transcript
- Taught at high school by certified IB teachers
- School districts retain state and federal funding
“I chose PSEO (Post Secondary Enrollment Options) because I get to take college courses at any college that is part of the PSEO program. I’ve always sought challenge in school, so PSEO is a good fit for me. I’m planning to go to college, so being able to get free college credits is important to me. I don’t know where I want to go to college yet — but I chose Saint Paul College (for PSEO) because their credits will transfer.”

- Zeke, Junior, Creative Arts High School
Post-Secondary Enrollment Options (PSEO)

PSEO allows eligible 10th through 12th grade students to earn both high school and free college credit through successful completion of college-level courses at participating postsecondary schools. Most PSEO courses are offered on the college campus; but some are offered online.

Advantages of PSEO

- Students earn free, transferable college credit while in high school
- Provides students opportunity to experience college while in high school
- PSEO students do not pay for tuition, fees, required books or supplies for courses

Thank You to the Saint Paul Public Schools Board of Education for their support of Early College in SPPS. With continued work and support, we hope to expand the opportunities to earn college credit to all SPPS High School students.

Opportunities for Growth of Early College:

- Dedicated and sustained funding for Career Pathways.
- Increase support, through courses such as AVID, to ensure students are ready for high rigor courses.
- Increased marketing of SPPS Early College opportunities to students, parents, families, district staff and the greater community.
- Continue to work with Minnesota State and Minnesota Department of Education to create increased opportunities for credentialing of high school teachers.
- Support the development of career and college readiness education for elementary and middle school students.

TOPIC: New Post-Secondary Contract with North Hennepin Community College for Dave Larson American Indian Research Tour

A. PERTINENT FACTS:

1. This contract will create a new post-secondary partnership with North Hennepin Community College.

2. North Hennepin will provide a four (4) credit course available to high school students meeting MnTC Goal Areas five (5) Hist/Soc/Behv Sci and nine (9) Ethical/Civic Resp.

3. The course is not listed as PSEO due to load restrictions. This course would be 4 credits on top of a full load of High School classes. The reason is that there is very limited seat time, some online readings prior to the 5 day research tour, and the bulk of the class is the 5 day trip.

4. Funding to cover travel expenses, including meals, lodging, and transportation will be covered by North Hennepin. Funding for credits will be covered by the Office for College and Career Readiness, $2,700 ($900/student x 3 students). Budget number: 01-005-715-000-6394-0000

5. This project will meet the District strategic plan goal/goals of Achievement and Alignment:
   a. Achievement: Personalized Learning: “Establish personalized learning as a key strategy to accelerate student achievement”
   b. Achievement: Ready for College and Career: “Increase the opportunities for students to earn post-secondary credit”
   c. Alignment: “Create and expand cultural, language, and specialized programs”

6. This item is submitted by John Bobolink, Supervisor, American Indian Education Program; and Dr. Kate Wilcox-Harris, Chief Academic Officer.

B. RECOMMENDATION:

1. That the Board of Education authorize the Superintendent (designee) to review the contract and enter into an agreement with North Hennepin Community College for the Dave Larson American Indian Research Tour, and;

2. Send a letter of appreciation to North Hennepin Community College President, Dr. Barbara McDonald, 7411 85th Avenue North, Brooklyn Park, MN 55445 for funding the travel, lodging, and meals for our students and staff chaperone to participate in this trip.

TOPIC: Children’s Defense Fund Freedom Schools

A. PERTINENT FACTS:

1. The Children’s Defense Fund (CDF) is the national sponsor of the Saint Paul Public Schools’ Freedom Schools Program for Summer Term (S-Term).

2. The CDF Freedom Schools program provides summer and after-school enrichment that helps children fall in love with reading, increases their self-esteem, and generates more positive attitudes toward learning. Children are taught using a model curriculum that supports children and families around five essential components: high quality academic enrichment; parent and family involvement; civic engagement and social action; intergenerational leadership development; and nutrition, health and mental health.

3. This project will meet the District strategic plan goal of achievement as it will be providing our ALC eligible students participating in CDF Freedom Schools Summer Term (S-Term) with the Freedom Schools curriculum and instruction designed to ensure each participating child is equipped with the necessary skills to succeed in life. The professional development, curriculum, and instruction pursuant to the CDF Freedom Schools program boosts student motivation to read, generates a more positive attitude toward learning, and connects the needs of children and families to the resources of their communities.

4. This item is submitted by Elizabeth Putnam; Assistant Director, Department of Alternative Education and Kathleen Wilcox-Harris; Chief Academic Officer.

B. RECOMMENDATION:

That the Board of Education authorize the Superintendent (designee) to approve the expending of ALC funds in the amount of $156,850 to provide professional support for overall program operations including training for CDF Freedom Schools staff, according to the CDF model, and also provide for the purchasing of curriculum and books for teachers and students to use for instructional and learning purposes during CDF Freedom Schools Summer Term.
