News You Should Know

NO SCHOOL APRIL 4-8
Next week we will have spring break. There will be no school the week of April 4-8. School will return on April 11. Have a wonderful spring break!

THANK YOU!!
Thank you for attending conferences for your child. I LOVE talking to you about your child and the amazing things we are doing at school. I am absolutely loving this school year with our class. We are such a collaborative and kind community. Thank you all for being incredible supporters of your child’s education. I appreciate you!

What We Are Learning

READING:
In reading this week we will listen to a variety of realistic nonfiction. We will talk about the books we read and discuss the characters, setting, theme, problem, solution, and ending. This study will help us get ready to write our very own realistic fiction stories.

WRITING:
In writing this week we will discuss the foundational skills needed to write a realistic fiction story of our own. We will think about realistic characters, settings, and problems that an 8 or 9 year old child could have. We will write stories that relate to our own lived experiences using fictional characters.

MATH:
In math this week we will be assessing our knowledge of Unit 3 math skills. We will break down our assessment so we are completing 4-5 problems each day this week. We will also spend about 15 minutes reviewing the skills before we assess. I think this will drastically help with any test anxiety students may be facing.
