VII. COMMITTEE REPORTS - none

VIII. SUPERINTENDENT’S REPORT

Superintendent Gothard began his report with the introduction and welcome to Chuck Long, General Counsel. We look forward to his guidance and leadership. He then moved to the recommendation for a referendum on the November 6, 2018 election ballot.

A. Referendum Recommendation

Our Commitment
- Provide our 37,000+ students and our community with world-class learning opportunities
- Create safe and welcoming learning environments for our students and staff
- Hire and retain high-quality staff to deliver on our commitment to students, families and community

Our Community
- Residents overwhelmingly agree that strong public schools are linked to the well-being of our community and strong property values
- Nearly 60 percent grade the district with an A or B
- Our community supports the vision being outlined in our Strategic Plan

Our Challenge
- Funding these commitments requires resources
- Federal, state and local funding are not keeping pace with increased educational needs and costs
- We have cut more than $50 million in the past three years - and approved cuts of more than $17 million for next year

State Basic General Education Funding per Student
- A graph showing state funding adjusted to inflation in relation to actual SPPS state funding was shown. State funding adjusted to inflation should be $6,854, whereas actual SPPS state funding
is at $6,312. If state funding had kept up with inflation, SPPS would receive nearly $55 more per student or a total of $19 million more this year.

**Voter Approved Operating Levies**

- A graph showing the voter approved operation levies for 2018-2019 for other metro districts was shown, with the highest, Wayzata at $1,967, Minneapolis at $1,637, Anoka-Hennepin at $1,022. The metro average is $1,022. Saint Paul’s is currently at $705.
- Saint Paul Public Schools is the second largest school district in Minnesota, but has one of the lowest voter-approved operating levies when compared to the state’s ten largest districts and SPPS neighbors.

**Board Action Requested**

- Administration recommends the Saint Paul Board of Education approve placing a school funding request on the Nov. 6, 2018 ballot to:
  - Increase our operating levy by $475 per student
  - If approved by voters, this would generate approximately $18.6 million per year
  - This levy would extend for ten years with annual inflation increases
  - The estimated tax impact on our average homeowner ($175,000 value home) would be approximately $11 per month or $136 per year

**If voters approve the request**

- Invest more in schools and student needs at all grade levels
- Implement the district’s Strategic Plan to increase achievement for all students
- Increase mental health and social-emotional supports for students
- Create middle schools designed to meet the academic and developmental needs of this age group and set them on a solid path for high school and beyond
- Provide some flexibility for emerging needs and new educational best practices
- Limit additional budget cuts

**If voters do not approve the request**

- Continued multi-million dollar budget cuts
- Cuts to programs that help students struggling with basic academic skills
- Cuts to staff and academic programs in all schools
- Cuts to the number of administrators, classroom aides, clerical, custodial and other support staff throughout the district
- Severely limit the district’s ability to implement its new community-supported Strategic Plan

**Strategic Plan - Student Outcomes**

- **Decrease differences in achievement** based on race, ethnicity, culture and identity
- Increase achievement of students **learning English** as a second language
- Increase achievement of students **receiving special education** services
- Improve the **readiness of students** before they enter kindergarten
- Increase **academic growth in reading and math** for all students
- Prepare all graduates for **college, career and life**

**We Listened**

- Our Strategic Plan and our levy request are based not just on our needs, but also on community input:
  - More than 700 people have provided input thus far on the Strategic Plan and more will do so
  - Our levy request is based on the values and hopes our community shared through a scientific survey of registered voters, in addition to our financial realities

**Summary**
Administration recommends that the Board approves asking voters to consider an increase in the district's operating levy, to support our ability to:
  o Invest more in schools and student needs at all grade levels
  o Implement the district’s Strategic Plan to increase achievement for all students
  o Plan to Start, Stop, and Sustain; committed to ensuring this new money will be used for new opportunities, support work underway, and most importantly look within organization for more efficiencies.

BF 31369 Resolution Relating To Revoking And Replacing Operating Referendum Revenue Authorization, Increasing The General Education Revenue Of The School District, And Calling An Election Thereon

RESOLUTION RELATING TO REVOKING AND REPLACING OPERATING REFERENDUM REVENUE AUTHORIZATION, INCREASING THE GENERAL EDUCATION REVENUE OF THE SCHOOL DISTRICT, AND CALLING AN ELECTION THEREON

BE IT RESOLVED by the Board of Education of Independent School District No. 625, State of Minnesota, as follows:

1. The Board hereby determines and declares that it is necessary and expedient for the School District to revoke its existing operating referendum revenue authorization for general education revenue of $704.52 per pupil and to replace it with an increased amount of $ 1179.52 per pupil, beginning with taxes payable in 2019. The proposed new revenue would first become available to the district budget for the 2019-2020 school year. This amount would increase annually by the rate of inflation. The proposed operating referendum revenue authorization would be applicable for ten (10) years unless otherwise revoked or adjusted as provided by law.

2. The question of revoking and replacing the existing operating referendum revenue authorization for general education revenue of the School District shall be submitted to the qualified electors of the School District at a special election, which is hereby called and directed to be held in conjunction with the State general election on Tuesday, the 6th day of November, 2018.

3. Pursuant to Minnesota Statutes, Section 205A.11, the precincts and polling places for this special election are those precincts located within the boundaries of the School District, which have been established by the City of Saint Paul. The voting hours at those polling places shall be the same as those for the State general election.

4. The Clerk is hereby authorized and directed to cause written notice of said special election to be provided to the Ramsey County Auditor and to the Commissioner of Education at least seventy-four (74) days before the date of said special election. The notice shall specify the date of said special election and the title and language of the ballot questions to be voted on at said special election.

The Clerk is hereby authorized and directed to cause notice of said special election to be posted at the administrative offices of the School District at least ten (10) days before the date of said special election.

The Clerk is hereby authorized and directed to cause a sample ballot to be posted at the administrative offices of the School District at least four (4) days before the date of said special election and to cause two (2) sample ballots to be posted in each polling place on election day. The Clerk is hereby authorized and directed to cause notice of said special election to be published for two (2) consecutive weeks with the last publication being at least one (1) week before the date of the special election.
The notice of election so posted and published shall state the questions to be submitted to the voters as set forth in the form of ballot below, and shall include information concerning each established precinct and polling place.

The Clerk is hereby authorized and directed to cause a notice of the special election to be mailed by first class mail to each taxpayer in the School District at least fifteen (15) but no more than thirty (30) days prior to the date of the special election. The notice shall contain the required projections and the required statement specified in Minnesota Statutes, Section 126C.17, subdivision 9, paragraph (b).

The Clerk is also directed to cause a copy of this notice to be submitted to the Commissioner of Education and to the Ramsey County Auditor at least fifteen (15) days prior to the day of the special election.

The Clerk is authorized and directed to take such other actions as may be necessary for the proper conduct of this special election and generally to cooperate with election authorities conducting the State general and other elections on that date.

The Clerk and members of the administration are authorized and directed to take such actions as may be necessary to coordinate this special election with those other elections, including entering into agreements with appropriate county officials regarding preparation and distribution of ballots, election administration, and cost sharing.

5. The Clerk is further authorized and directed to cooperate with the proper election officials to cause ballots to be prepared for use at said special election in substantially the following form, with such changes in form and instructions as may be necessary to accommodate a system other than a paper ballot system:

**Revoking Existing Operating Referendum Revenue Authorization; Approving New Authorization**

The school board of Independent School District No. 625, Saint Paul Public Schools, has proposed to revoke the school district’s existing operating referendum revenue authorization of $704.52 per pupil and to replace that authorization with a new authorization of $1179.52 per pupil. The proposed referendum revenue authorization would increase each year by the rate of inflation and be applicable for ten years, beginning with taxes payable in 2019, unless otherwise revoked or reduced as provided by law.

Shall the school district’s existing operating referendum revenue authorization be revoked and the increase in revenue proposed by the school board of Independent School District No. 625, Saint Paul Public Schools, be approved?

_____ YES
_____ NO

**BY VOTING “YES” ON THIS BALLOT QUESTION, YOU ARE VOTING FOR A PROPERTY TAX INCREASE.**

6. The individuals designated as judges for the State general election shall act as election judges for this special election at the various polling places and shall conduct said special election in the manner described by law. The election judges shall act as clerks of election, count the ballots cast and submit them to the Board of Education for canvass in the manner provided for other School District elections. The election must be canvassed between the third and tenth day following the official election.
QUESTIONS/DISCUSSION:

- Director Vanderwert noted that we have a mission in Saint Paul to educate 37,000 kids. It requires recourses. We need to be able to hire great staff and support them, and support the community in ways that build up the city. She is very much in support of this referendum. She also noted that we approved a budget that cute $17M, and this referendum will give us $18M. These past cuts were painful as a District. It is unrealistic to ask the voters for more, but wishes that we could ask for more to be able to provide all those things that we dram about for our kids. She is very much in support of this referendum, and hopes the community feels the same.

- Director Schumacher also noted that he is strongly in support of it. It has been a process to come to this kind of understanding of need. This action is not taken lightly. We know there will be impacts. This is a commitment the City of Saint Paul and its residents will make to the education of all our kids. We will all work very hard to accomplish that. He does feel that questions on discourse, he feels confident that we have, as a staff and Superintendent, provided a foundation for a strategic plan that will address the needs, hopes, and concerns that we have around our children of Saint Paul. We have had an in-depth process, including community engagement which is on-going. There is a bit of a challenge because our strategic plan is still in process, and the need for money now to benefit the goals of the strategic plan which is still being formed. The commitment of the Superintendent, staff, and board members to make sure we have actions embraced by the communities and have the support of communities is critical. By taking this step and asking for the money we need to have a base to build on, and hopefully the state legislature understands the needs as well for all schools in the state to grow and be properly and fully supported. This continues to bring up questions we need to answer – what is the Saint Paul Public Schools education, and why do we need to have the money to deliver that? It is the Board’s responsibility to ensure we are putting into place a system that can deliver and give our kids the education they deserve. He thanked everyone for their work in this, and noted there is more work to do. We continue to be answerable to the community and will continue to engage and work towards this. The strategic plan goals we have are common sense, and also shared goals. To make sure that we get those kids in early, and make sure when they leave, they are ready for career and community. He strongly supports this referendum, with knowledge we have a lot of work to do.

- Vice Chair Marchese noted that he joined this Board because he believed there is an opportunity to advance this City and the work of this District, and we need to be strategic in how we do that. He has been a consistent voice on budget, policy, and planning. The District has taken steps to move in that direction, with more work to do. One of the consistent issues is the lack of revenue for the work we need to do. Over the last 3 years of budget shortfalls, we need to look back at what we are providing for our kids. The vast majority of children in Saint Paul are educated in the buildings of this school district. If you care about the children of our city, you care about the health of our schools district. In order to have a healthy school district, we need a consistent source of funds. Unfortunately, our legislative partners have not proven up to the task. This spring, the governor made a concerted effort to allocate a proportion of the state’s surplus for the benefit of the state’s children, and the legislature said no. As a board member, it is his responsibility to look at the tools at our disposal and decide what we can do to provide the resources for this district to survive and thrive. We owe that to our community and to our children. The budget shortfalls we faced over the year were not just forces of nature – they were also results of decisions of policy makers in the legislature around how the state funding has not kept up with inflation and also show that we have gone back to the our taxpayers to ask to be part of the process. This district still lies at the low end of range of districts of similar size in terms of the rate in asking our community to participate in this process. We have generous city, and a generous community that’s participates in numerous ways, and this is a way we need our community to step up to support our kids. If we look at that fact and proposal by the superintendent, this is an opportunity for us to get right our children, get right with community, and support our kids. We need the funding and use it wisely, strategically, and effectively. He has faith in the superintendent and the plans to do that, faith in commitment to brought forward to us, and to do it effectively and well. We need to do this work, and do it together. It’s an important ask for the future of our community. This district has building
blocks to be terrific, there is pride in our schools, and we need to build off that. We pay it forward to all the children who go to our schools by providing the funding and support. He thanked the staff, superintendent, and Springstedt for their work to lay the groundwork for this.

- Chair Ellis noted that this the first time six of the board members are participating in a referendum. She believes the community will invest in our schools and students. We need to work hard to get this done. She is committed to this. After her time at the capital this year, and realizing that they are not doing their job to fund the education of our students. The fact that we need to come to voters because we don’t have another option. This is what we need to do for our kids. This District, this community, and this Board will rise up for our kids, and we cannot let them down. It’s about investing in our schools and students at all grade levels, implementing the strategic plan to increase achievement for all students, increasing mental health and social-emotional supports, and creating a middle schools to meet the academic and developmental needs, and set them on a solid path for high school and beyond; also, to provide flexibility for emerging needs for educational best practices. This district is and can be creative and innovative, but will need the resources to accomplish that. She absolutely supports the referendum.

- Director Xiong noted that all of kids in SPPS deserve a high quality education. It is challenging because school funding is systemic and dependent on state funding. It’s frustrating to hear about the lack of investment in education from the legislature. The fact the state funding has not kept up with inflation and increasing costs is frustrating. To experience a Saint Paul Public Schools education as a student, the struggles of school funding were evident, and we are still in that position to push our state legislature to do what’s right for our students. It is a continuous conversation; we are now looking at local government, our neighbors and voters to supplement funding for education through this referendum. She hopes this is not a conversation we will continue to keep having. It’s time for us to invest in kids and education, the future of community, state, and city is tied to how kids do in education, it is a necessary conversation and we must do this for our kids.

- Director Foster noted that in thinking of a public education. It’s a necessity to have access to a public school education that recognizes each and every student in the community. It is frustrating that we continually need to go back to the community to do this and ask repeatedly so that we can provide the expectation that going-forward each and every year we will educate all students. It is frustrating and to come before and ask, we are asking because our kids, our community, and our survival of the future depends on this. It’s necessary to make this ask. She supports this because she believes in our students and the community to be successful.

MOTION: Ms. Ellis moved that the Board of Education adopt the Resolution Relating To Revoking And Replacing Operating Referendum Revenue Authorization, Increasing The General Education Revenue Of The School District, And Calling An Election Thereon, and approve the language to be added to the November 6, 2018 election ballot as recommended in order to support our ability to invest more in schools and student needs at all grade levels and to implement the district’s strategic plan to increase achievement for all students. **CONSENT AGENDA ITEMS PULLED FOR SEPARATE CONSIDERATION:**

**BF 31393** Request for Permission to Submit a Grant Application to Ramsey County Children’s Mental Health Collaborative (RCCMHC)

The Board requested more information on this item. This is a onetime grant funding source for $15,000 to purchase social-emotion, mental health and wellness curriculum and materials for social workers, school counselors, and teachers. These were funds that RCCMC had available that they had leftover, and needed to be spent by September 30, 2018. There was a quick request for proposals. Included in the proposal are funds to purchase African drumming equipment for a school social worker and counselor at Central High School who are planning to collaborate with drumming lessons in a variety of ways.

**MOTION:** Ms. Foster moved that the Board of Education authorize the Superintendent (designee) to accept a grant from RCCMHC to fund wellness and trauma informed materials; and to implement the project as specified in the award documents. The motion was seconded by Ms. Xiong.

The motion was approved with the following roll call vote:

- Ms. Vanderwert
- Mr. Schumacher
- Mr. Marchese
- Ms. Ellis
- Ms. Foster
- Mr. Brodrick
- Ms. Xiong

**BF 31394** Request for Permission of Board of Education to Enter into a Service Contract with RazKids

The Board requested more information on these items. RazKids is a digital platform with over 50,000 resources for students to read in multiple languages. It is a digital library that supports the achievement goal of independent reading and access to multiple texts, as well as options for teachers to provide readings that are of specific interest to students. Half of the elementary teachers who use this program purchase it from their own funds; it is a reasonable platform that most schools fund themselves. It is the number one most requested app for digital text, and aligns with the District’s belief in the importance of reading and a cost effective way to get 50,000 resources into the hands of our students. The $145,000 is a per year cost for this program. In regards to the languages that RazKids offers, it also includes Spanish and French. Newsela is an app that provides materials in a variety of languages in the free version, such as newspaper articles. RazKids will provide access to other materials that cannot be accessed through the free version of Newsela.

- What is the data and how does it align to the results? Answer: We measure the amount of usage. We will be able to see the amount of materials that students are reading, as well as what they are reading, so their interests. It is voice and choice, and volume of reading. Because it was optional,
we didn’t have access to the data behind the scenes. Our intention is to measure that more deeply with district information, as opposed to the classroom-only data that was more anecdotal.

- How would the schools who have not used this program be supported? Answer: Part of this contract includes professional development, including online webinars. There is face-to-face professional development, as well as online webinars, where teachers receive clock hours.
- Right now it is K-2. Have other grade teacher expressed interest in this app? Why just K-2? Answer: In looking at early reading scores and support to be proficient readers, the access to digital text is extremely important. Students in K-2 need to be reading 10-12 texts a day. The idea is to support volume of reading to start with in K-2. Reading in grades 3-5 is also important, however there are free versions of digital resources with age-appropriate content to support those learners in their reading skills.

We have also worked with RazKids to translate those books to Hmong, and in working with our teaching staff. Internally, we are expanding as we can to support those programs. The books can be accessed at home, and are also printable. They can be accessed 24/7. Access to text is also helpful.

K-2 teacher will have access to materials. The professional development will be part of monthly leads meeting, and onsite professional development for teachers. It is intuitive, and we are using the “train the trainer” model to start.

**BF 31395 Request for Permission of Board of Education to Enter into a Renewal Service Contract with FastBridge**

The FastBridge contract is a renewal of the current program. We are pleased with the progress of this program with students and staff, and provides data to guide our instruction and to inform us of student performance in literacy. Fast is used for all K-8 students; if their instruction is in English, their assessment will be given in English. At Adams and Riverview, and Wellstone, we use parts of the Spanish assessment. The implementation has been amazing. The data that we are receiving and information to teachers is great. Teachers and administrators are asking for this assessment in 9th grade. It began with K-8. The overall consensus is, while it is a screener, there are lots of ways to look at student success. For kindergarten, we are using in literacy. We use the work sampling in PreK. We are going to use the data to present the mid-year results, and talk about the success of the data. Principals have participated in Fast data digs, as well as coaches and leads. We have also reported the Fast data to the State. 68% of students in SPPS had growth, while not proficient, they did make growth. We have work to do, and continue to do, with celebrations also and data to look at that.

The Board noted the importance of the kindergarten data, and that if we know how our kids are coming into school, we can better prepare for them.

The renewal will expand only to ninth grade for next year. One of the reasons is that we don’t want to over test. In ninth grade there isn’t a statewide test. Tenth graders take the MCA tests, and eleventh graders take the SAT or ACT. It was from feedback from teachers to take it to 9th grade. If there is an overwhelming consensus that we feel after ninth grade this data would be useful, we can look into that. How can data be used to inform instruction, which is key.

The assessment is currently required for literacy, and math is optional for teachers to use. Part of the motivation was progress monitoring, and we wanted to ensure staff are solid in the platform and how to use data and inform that data.

- Since the math assessment is optional, what is the timeline for the math assessment to become non-optional? Answer: We’re going to give one more year in the implementation of literacy to be very solid in the program, and expand it to math after that extra year.
- Are there general rules of thumb in curricula in terms of time to assess? Answer: The prime concern is not to overwhelm teachers with too much at once. This year, 98% of teachers were using it, and we don’t want to overwhelm them with another model. In terms of the math assessment, we have never had a district-wide math assessment, or a secondary literacy assessment. That is one of the reasons that schools and principals are asking for these. It is an enhancement and data that they receive during the school year. Also striking about Fast is that it is so quick; the previous assessment requires 2-3 weeks of teacher time to analyze the data and three times a year. This is more efficient, gets the results, and is clean.
MOTION: Ms. Ellis moved that the Board of Education authorize the Superintendent to enter into a contract with RazKids; the total cost for services not to exceed $145,000, will be paid from the instructional services budget for the 2018-2019 school year, as well to authorize the Superintendent to enter into a contract with FastBridge; the total cost for services not to exceed $160,000, will be paid from the instructional services budget for the 2018-2019 school year. The motion was seconded by Ms. Foster.

BF 31396  MN Urban Debate League (MNUDL) Program 2018-19SY

The Board noted that they have attended events for Urban Debate League in Minneapolis, and are wondering about an overview of schools and how many students in the district participate, and if it is growing from year to year. In addition to continuing at high schools and middle schools, MNUDL applied for a Saint Paul Foundation grant, it was received, and we are one of the beneficiaries. Over the next two years, We will be expanding to four additional middle schools, as well as expanding the Spanish language debate program, and work collaboratively to add a Somali debate language program. The number of students can be sent to the Board.

- What are we doing to ensure there is access to all students, and that all students are encouraged to try this? These skills will be needed in their lives, and that’s our mission. We want to ensure those opportunities are out to each kid with potential for it. Answer: The recruitment that teacher coaches and assistants from MNUDL staff seek to find those students that are eager and seek out debate, and also those that could benefit from debate. Teacher coaches look at student population to ensure there is diversity. One of the ways is Spanish language debate, not only for native speakers, but also multilingual learners, and the expansion of the Somali language debate. They do a great job to ensure those opportunities are available to all students. Also one of the reasons we are expanding is because more students are demanding it and teachers want more students involved.

- There are some district using debate in curriculum and the instructional strategy. Are there thoughts on that? Answer: It is connected and embedded in a Minnesota state standards. We encourage productive discourse through AVID strategies where students are grouped with certain perspectives, and engage in lively discourse around topics. It is most valuable when staff and teachers are working with students around how to have a productive debate, including how to defend and respond properly, and also not take offense, and sometimes to debate on the side they may not agree. Our social studies lead is also working with teachers on productive discourse and debate within the classrooms.

- The type of debate that is done these days is so fast, and how fast the students think and debate is amazing, and are spot-on with thinking processes and defend. In watching the debate at a national level, those skills seem to be needed, and can't wait for our young people to grow into those leadership positions to return to rationality in national debates.

MOTION: Ms. Ellis moved that the Board of Education approves the MN Urban Debate League partnership in the aforementioned high schools and middle schools for the 2018-19SY. The motion was seconded by Ms. Vanderwert.

The motion was approved with the following roll call vote:

Ms. Vanderwert  Yes

I. CALL TO ORDER

The meeting was called to order at 4:34 p.m.

II. AGENDA

A. Superintendent's Announcements

Superintendent Gothard began the meeting with an update on Admin Academy on August 8th, where we welcome administrators back for the year. We are excited to provide them with updates and direction for the school year. Throughout the summer, there have been many building updates, and buildings to repair. He thanked the buildings maintenance team, as well as Facilities for their hard work this summer. We will also introduce new principals, assistant principals, and administrators soon, and there will be a reception for them later this month. There are many new places for folks, and am excited to introduce them to the community and support them.

B. Summer Programs Update

Superintendent Gothard, as well as with Beth Putnam, ALC Director, then provided a brief recap on the summer programs for SPPS. An expansive presentation was shown to the board in the Spring, and these are high-level updates. There were 9 elementary schools, 1 middle school, and 5 high school sites for summer programs. There were 4 six-week program sites, 6 multi-district program sites, 6 charter school sites, with 25 SPPS sites and 6 charter schools overall. It is almost half our district in size and scope. He then listed the specific sites by name. We try to access those sites with air conditioning. Student enrollment figures for S-Term 1 and S-Term 2 were discussed. Our goal was 13,500 enrolled by onset of S-Term 1. At onset of S-Term 1 we had 14,800 students. At the onset of S-Term 2, there were 10,600. These numbers were anticipated. There were significant enrollment increases for grades 5-7, 8, and six-week, multi-district, and charter schools. Enrollment for K-4 decreases, with more families sending students to six-week and multi-district programs. Enrollment for 9-12 was similar to 2017. Depending on programs families accessing, it could shift numbers. K-12 average daily attendance for S-Term 1 and 2 combined was for elementary 2200, with middle at 1,150, high school at 3,800, six-week programs at 800, multi-district at 850, and charter schools at 750. The average daily attendance was 9,600 students in 2018 for S-Term 1 and 2. There is approximately the same number of students from S-Term 2017. Overall, there was an increase. He also shared the types of innovate ways that students learned at S-Term across the district, enriching their learning with staff. These are courses designed for
high-interest, and high-need, to energize learners for success and meet them in their learning needs, as well as make up for gaps.

In terms of staffing, there are 29 site administrators, with 850-900 S-Term staff. In terms of staff, that is the size of many MN districts, in what we do in the summer time. There is also an ESY program for our students in special education. There were 100 students in early childhood at Rondo, 200 in grades K-8 were held at Benjamin E. Mays, and 100 students in grades 9-12 at Focus Beyond, as well as students in grades K-12 at Bridgeview. They focus on 2-3 IEP goals for each student. As a community, we should be proud for what we have to offer, and thanked ALC, transportation, nutrition services for their hard work and support.

QUESTIONS/DISCUSSION:
- How do we evaluate the success of these programs? Response: While there isn’t specific data for program efficacy, S-Term is included as part of SPPS’ student monitoring of academic success and any time to attribute to those extra services in summer school to decrease the “summer slide” for students.
- Given the timeframe of S-Term, it may be difficult for staff to get to know the kids. Have there been thoughts around making it a full summer program, or ways to make it more effective? Response: Summer for many families is a time of activities outside of SPPS, so there are opportunities for different configurations and courses to best offer that balance. There needs to be engagement, agreement, and a goal-generated purpose around S-Term coordinating and timing.
- Since the majority of S-Term for high school students is to retrieve credits, how many credits were retrieved? Also, how many students began S-Term with needing to make-up credits, and how many were successful? Response: Early numbers show that highest daily attendance was 4,000, with about 3,800 on average. That data emphasizes that we are retaining students with authentic class work. Data from the state will be sent after the first of the year for total hours at those levels of engaged instruction and the credits earned, including how many were attempted and how many were earned. From that data, we can then find ways to adjust curriculum.
- Was there a 5% absenteeism rate on any given day? Response: That is what the data is currently telling us. A lot of students made up credits based on attendance, and those numbers will be provided from the state.
- The Board noted that it would be interesting to look at data on the number of students who are short on credits at the end of the school year and by how many credits they are short. It leads to the questions of are we having far too many kids losing credits during the school year? Is there a way to prevent that? Response: There are programs, such as Focus on Freshman, that emphasize to ninth grade students about credit accrual and the foundation to build on for their future, including graduation and GPA. That data will be important to review how we are doing.
- For summer graduation, how will students know if they made up enough credits to graduate at the end of the summer? Response: Counselors and navigators will guide and track the progress to ensure they do retrieve enough credits to be able to graduate at the August graduation ceremony.
- In terms of equivalency of hours and the content of those S-Term courses, there are differences? Response: During S-Term for the 9-12 grade students who are earning credits that were already attempted, learning has occurred, and there are set hours of engagement; students have the ability to make up to 12 credits per S-Term, with one class at 2 quarter credits. We prioritize certain standards for curriculum, and what the state requires to consider it completed. It’s a combination of credit recovery and what has already been done and work completed during S-Term, which adds up to passing with the same material and credit.
- If total high school enrollment is 12,000, is it accurate to say that 1/3 of those students are going to summer programs? Is it consistent with patterns? Response: It is consistent with last year.
- The Board noted that it is concerning that 33% of high school students are spending some time recovering credits during S-Term. Are there reasons for that, including attendance or test scores? They noted that they are glad there is solid attendance at S-Term, with the hope that it wouldn’t require so many students trying to recover credits in the summer, and try to accomplish that during the school year. Response: There are many factors that prevent students from earning full credits during the school year, and the overwhelming feedback was that teens simply have a lot going on.
For some of them, it was losing one credit, due to asking so much of them, their workload, working at jobs, and extra curricular activities.

- It was also noted that the data does not reflect a 1:1 ratio in terms of SPPS enrollment. We are the district on record for all summer programs, including private schools and charter schools, and for those students not enrolled in SPPS during the school year. More data on the number of SPPS students within those 4000 students in S-Term versus other schools can be provided. There is credit recovery going on for those students not enrolled during the school year.
- Are those ninth and tenth grade students, are we tracking how many have been through S-Term before, and tracking those trends of those who regularly need to make up credits in the summer, so that they don’t fall behind every year, or how they think about year-round school? How do they cope with that? The Board also requested a demographic for all students who are in summer school from K-12 – a breakdown of who is here.
- What is our relationship with charter schools? Response: Charter schools cannot access extended day funding the same as public schools without a state-approved alternative program. Charter schools do not receive reimbursement per hour or per student; instead it is better for them for us to run their program to use our resources, HR, and payroll, to facilitate programming at their schools, and we collect those ADMs from students in those programs – it is a good situation for the both of us. They use their staff and leadership.

C. Referendum Update

Superintendent Gothard then provided a review and update on the referendum.

**Timeline of Referendum**

- July 17: July BOE Meeting; Board approved to pursue a referendum
- Late Aug/Early Sept: Training for Referendum site teams
- November 6: Election Day

**Our Commitment**

- Provide our 37,000+ students and our community with world-class learning opportunities
- Create safe and welcoming learning environments for our students and staff
- Hire and retain high-quality staff to deliver on our commitment to students, families and community

**Our Community**

- Residents overwhelmingly agree that strong public schools are linked to the well-being of our community and strong property values
- Nearly 60 percent grade the district with an A or B
- Our community supports the vision being outlined in our Strategic Plan

**Our Challenge**

- Funding these commitments requires resources
- Federal, state and local funding is not keeping pace with increased educational needs and costs
- We have cut more than $50 million in the past three years – and approved cuts of more than $17 million for this year

**State Basic General Funding per Student**

- If state funding had kept up with inflation since 2003, SPPS would receive nearly $620 more per student, or a total of $21.6 million more this year.
- There is a funding gap between actual SPPS state funding of $6,312 and state funding adjusted to inflation of $6,930

**Voter-Approved Operating Levies – 2018-19**

- Saint Paul is on the lower end of the voter-approved operating levies in the metro area at $705, with the metro average at $1,022.
Saint Paul Public Schools (SPPS) is the second largest school district in Minnesota, but has one of the lowest voter-approved operating levies when compared to the state's ten largest districts and SPPS neighbors. These levies provide critical funding for classrooms, instruction and other operating costs.

**Operating Levy Request**
- On the November 6, 2018 ballot:
  - Increase our operating levy by $475 per student
  - If approved by voters, this would generate approximately $18.6 million per year
  - This levy would extend for ten years with annual inflation increases
  - The estimated tax impact on our average homeowner ($175,000 value home) would be approximately $11 per month or $136 per year

**If Voters Approve the Request:**
- Invest more in schools and student needs at all grade levels
- Implement the district’s Strategic Plan to increase achievement for all students
- Increase mental health and social-emotional supports for students
- Create middle schools designed to meet the academic and developmental needs of this age group and set them on a solid path for high school and beyond
- Provide some flexibility for emerging needs and new educational best practices
- Limit additional budget cuts

**If Voters Do Not Approve the Request:**
- Continued multi-million dollar budget cuts
- Cuts to programs that help students struggling with basic academic skills
- Cuts to staff and academic programs in all schools
- Cuts to the number of classroom aides, administrators, and clerical, custodial and other support staff throughout the district
- Severely limit the district’s ability to implement its new community-supported Strategic Plan

**Summary**
- November 6 ballot request to increase our operating levy:
  - Invest more in schools and student needs at all grade levels
  - Implement the district’s Strategic Plan to increase achievement for all students

Superintendent Gothard also noted this to present information, rationale, and reasons on what the votes will mean for SPPS.

**QUESTIONS/DISCUSSION:**
- The Board noted that they support these efforts. Are we able to quantify improved schools with how it will impact the entire community? Can we extrapolate that we’d have safer streets, fewer health concerns, less mental health needs? Is there a way to claim that there will be wider benefits to the community with the passing of this referendum? Response: In working with MDE, school administrators, and the North Star rankings, we are meeting on what this will mean, and a new way for Every Student Succeeds Act to report to the community of how we are doing, ways to look at what schools do, and change on the value of education. The report will focus on analytics and quantitated measures in looking at what the schools mean to community and families. There are so many things that are necessary for a community to be successful, and there are comprehensive ways to address this through the strategic plan to help overall long-term student outcomes.
- It is necessary to understand how the district will look different with the presence of the referendum versus without it to give the community a sense of how it will be different. Are there models or examples to show the need for funding, including on what it will mean for our middle schools, to understand on a tangible level? It’s the need for revenue, and the historical underfunding, budget deficits, and we need to provide concrete examples of what we will be able to accomplish with this funding, and how the referendum will have tangible differences for their kids, their neighbors, and...
kids across the district. Everyone will be touched by this and feel the impact. Response: Nine of the nineteen strategic initiatives have been planned with time over the summer, and as leaders and staff come back to our buildings, there will be more specific information shared as they are developed. They address a lot of different areas and efforts that we are working on, and have ways and system to prioritize, to look at programs and efforts that are working and to stop those that aren’t working. Those are tough decisions to make, and the initiatives have a student focused outcome, and we owe it to the community.

D. Supplier Diversity

Superintendent Gothard then introduced the Small Business Inclusion Program presentation, which was started before he began as superintendent, and is very impressed and excited for their work with the community to look at practices and find ways to be inclusive with all entities in business. He introduced Jackie Turner, Monika Watkins, and Will Forbes to present their information, with the community member group. The timeline will be reviewed, as well as the work of the council, answering of board member questions, and talk about the policy and implications, best practices, with the action of the Board to be to accept the report.

Why Does SPPS Need a Small Business Inclusion Program

With almost 38,000 students, many students of color within the demographics, this program will positively impact the community. With many resources going to the FMP over the next ten years, there are opportunities with the 5,000 small businesses in the community, which are many times women- and minority-owned businesses. About 1.2 million employees are in the small business community. They are out there, and the need is there. It will help the community, and the time is now to do something to help incorporate small businesses into our plan.

Small Business Inclusion Program: Timeline

- BOE Directive: Winter 2016-17
- Start Initiative: August 1, 2017
- Research & Analysis: August 2017 – July 2018
- CAC Meetings
- Entities Interviewed
- Existing Programs Evaluated
- Report Drafted: August 1, 2017 – July 2018
- Program Development: August 1, 2017 – July 2018
- Report Presentation to BOE: August 7, 2018

Process Overview

- 18-Member CAC created → Internal Assessment of spends, policies, and practices → Research to establish legal foundation → Assessment of regional practices, programs, and trends → Creation of proposed amendments based upon legal foundation and regional trends
- The Office of the General Counsel, Finance Office, and Purchasing was also acknowledged for their work.
- There has been extensive community engagement on this subject. The 70-page report is information and documentation that was done as a team.
- It is about disturbing a piece of the pie of contracts to small and emerging businesses.
- We have learned over time of the importance of supplier diversity. This will allow SPPS to move in a different direction and brand SPPS to provide opportunities not see in the past in moving forward.

**BOE Questions Regarding Program**
- Is it legal?
- What will the program cost?
- What will the program look like?

**Existing Policy Support and Legal Foundation**
- SPPS Policies Supporting Equity
  - Policy 713.00
  - Policy 101.00
  - Policy 102.00
- Legal Foundation
  - Compelling Government Interest
  - Narrowly Tailored
- Types of Programs
  - Race- and Gender-Conscious Programs
  - Race- and Gender-Neutral Programs
- Disparity Studies
- Case Examples

**Regional Practices** were also presented including these areas:
- Procurement
- Vendor Inclusion
- Workforce Inclusion
- Data Management
- Outreach

**Proposed Small Business Inclusion Program Overview**
- SBE Program
  - SBE and Micro-SBE Goals
  - Member of CERT Collaborative
  - Conduct Disparity Study
  - Direct Quote Options under $100,000
  - Compliance Monitoring

**Policy 713.00 Amendments**
- Race- and Gender-Neutral Program
  - Proposed Amendment
Applies to all construction projects
10% SBE and 15% micro-SBE goals
Annual evaluation of aspiration goals
Staff dedicated to enforcing compliance
  o Rationale:
    ▪ Program that can be created without a disparity study
    ▪ Regional practices support need for staff to lead this work

• Disaggregation of Date
  o Proposed Amendment
    ▪ Collect and maintain vendor and consultant race, gender, veteran’s status, and geographic location data
  o Rationale:
    ▪ Maintaining timely and reliable vendor and consultant data allows the District to:
      1. Increase contracting transparency
      2. Increase efficiency in contracting

Revisions to Practices
• Procurement – unbundling work scopes
• Vendor Inclusion/Certification – join CERT Collaborative
• Workforce Inclusion – Adopt 32% minority and 20% female workforce goals
• Increased Outreach and Marketing – contractor meet-and-greets, procurement fairs, engage local SMWBE associations
• Compliance and Data Management – update existing systems and forms, explore compliance agreement with the City of Saint Paul

Potential Departments Impacted
• Facilities
• Purchasing
• Technology Services
• Finance
• Legal
• Racial Equity Office

High Level Implementation and Potential Cost Analysis for Year 1, Year 2, and Year 3 were then presented, with the four different options’ cost (included in the report).

Next Steps and Key Decisions if the Board Wants to Move Forward were also presented, beginning with the Board Policy Work Group to discuss the proposed amendment to Policy 713.00, and the September, October, and November Board of Education Meetings for the first, second, and third readings of the draft revised policy.

QUESTIONS/DISCUSSION:
• Is the expectation that the working group would look at the recommendations after the revision of the policy by the Board? Response: After the discussion of the amendment has started, Administration could then continue their work. It would be good to continue to have support from the community and the Board to move forward. We should make a decision around the disparity study, and to continue to work on, to gain interest from other entities across the state because the costs will differ based on the number of organizations that want to participate in the study and results. We would be working in parallel. We should know by November of the other organizations that was to participate in the study. This work could begin in the next 30 days in the disparity study and with the city and the CERT collaborative. We will continue to work with the community partners. There are internal items that we need to do to put on the right track.
• What should we be focusing on in terms of the options? Will it appear in the budget? We want to give the collective work to move forward and bring the best recommendation to us. Response: First we would like the Board to accept the report. Secondly, we’d like the Board to move forward with
discussions on the amendment to Policy 713.00. Administration will bring forth recommendations on the different options. In the event that there needs to be governance or policy revisions, or impact to the budget, that would then be brought back to the Board. How the policy is drafted will impact the elements of the program and the costs. That direction will signal to the group on implementation and analysis.

- In beginning to talk to about the change in policy, many policies are supported by procedures, where many of the details are found. The Board noted that what the Board Policy Group does in terms of the policy will affect the procedure. Is it the Board’s direction to note the policy we’d like to see, while calling out the disaggregation of data and cost implications? Response: First it is “if we are a go” and a direction as the Board would like to take, through the policy. That process kicks off discussion for the policy. Administration and the Board will not be working alone in this; Legal will also be helping. As for the suggested timeline, Administration wants to put this on the radar of the Board, and if it goes into September or October, that would also work, as we want to continue to see the work move forward, while also working around the Board’s calendar.

- What is the nature of the disparity study? In some ways we have identified the disparities – it’s an 18 month study. How will that help inform and why will it be 18 months? Response: We know, but we haven’t sufficiently proven out through a disparity study. It will look at more than our data set; it will look at our market as a whole, options, historic utilizations, and if we are underutilizing businesses. That evidentiary foundation will serve as the compelling governmental interest in addressing the disparity. The 18 months is a standard in the industry. The good news is that there is data from the previous disparity study that could be handed off. It may end up being less, but is an estimate. It is evidentiary foundation to say that we, as a government entity, need to address a historic disparity.

- Is there a protocol that’s used for the disparity study? Is the policy built after the disparity study, or is it around setting parameters? Response: Yes, the policy will set parameters. We could get to the disparity study and find additional policies than the ones we have here, but this is a place to begin. We can’t jump to setting goals for minority- or women-owned businesses without conducted evidentiary foundation. In showing the number of businesses in the city, we can start to improve the numbers without waiting for that evidentiary data. It’s starting the process.

- The effectiveness of what we do is key, and making sure Administration has the time to do it. They would prefer to wait to ensure they have the necessary time to have a robust, thought-out, and effective small business initiative that is inclusive enough to make a difference. They recommend to start with that, what is the impact, and be worth the effort and impact.

- Is the previous data sufficient to give us an idea of where we are? Administration also noted that the disparity study would be in depth and comprehensive. They are doing a 5-year drill down on businesses, and who has achieved work, why aren’t they hearing about it; they go to the details. They look at the people who won’t bid, and drill down to information. It is official documentation that supports the decision. We know there is a disparity, and this would be documentation. Procedural changes help to open the doors. It’s an interesting idea of what is impactful. Once the Board decides to go forward, that process of improving the numbers could start.

- They also noted that the policy changes are not starting from scratch, but we have sample language and best practices. It is about finding those policies that pertain to small business, and what we are required to follow, and can it tie into the disparities language.

RECOMMENDED MOTION: Mr. Marchese moved to accept the report, and was seconded by Ms. Foster. It passed by acclaim.

E. Organizational Chart Update

Superintendent Gothard then presented and discussed Phase 1 updates to the Org Chart. The work of the District will happen as we work together as a team around creating the necessary changes for us to improve student outcomes. These changes are based on form and function. Updates include Chief of Staff, which will include legislative affairs and key supports, grants (development and management), the new position of Equal Opportunity Officer (this role will receive complaints and discrimination, and represent the superintendent in matters of complaints to be the person on record and use standard procedural
investigation practices – we are dealing with people, policy, and pressures) (will be a director level). Equity will report to the Chief of Staff as well, while also working with Office of Teaching and Learning. Director of Family and Community Engagement will also report to the Chief of Staff. Research, Evaluation, and Assessment will report directly to the Superintendent, while working collaboratively with all departments. It will be the single point contact to establish routines. Deputy Chief of Technology Services will report to Operations. Department of School Culture and Climate has been divided into two entities and will report to the Chief of Academics. Alternative Learning Programs will report to the Office of Teaching and Learning. Chief of Schools is a new position that will work with assistant superintendents and the Office of Leadership Development to ensure we are coaching and holding administration to the highest standard. Legal is also shown as a dual-reporting role to both the Board and the Superintendent. These changes will ensure there is clarity for our leaders and direction on their roles and responsibilities. The positions of Director of Communications, Marketing, and Development and Director of Specialized Services are still open and ongoing right now to find the best talent for those positions.

QUESTIONS/DISCUSSION:

- A board member noted that there should be a direct line from the Board to the labor negotiations manager, whether it is a direct line or an assumed line because they will be directly negotiating for the Board in deciding contracts. Response: That will be considered as feedback, and will talk with other. We can check into the practice of other districts, including CGCS and share with the team.
- The role of the Chief of Staff was also discussed as well as the groupings of the org chart.
- A board member also noted their concern about the personalized learning role in technology, and is now in a different grouping.
- Another board member questioned why Human Resources reports to the Chief of Staff. Response: there are a few reasons; one of them is a recommendation based on several organizations, and there is a lot that is managed by this team. This way will allow there to be a point of escalation because right now, a lot of the HR concerns are sent directly to the superintendent. It will create a difference culture with different levels of support for staff or others before it goes to the superintendent.
- The role of REA was also discussed, and data sharing in both directions in form and function. It is a collaborative role, while also being close to the superintendent to response to needs for district-wide information. Superintendent Gothard noted that they believed this was important to ensure he was working directly with REA on information so critical to the strategic plan. In other districts of our size, this is how it is organized in 90% of those districts. This department is a direct report to the superintendent, while working with all departments on the routine and reports generated and collaboratively built for many programs. Accountability function works cross-functionally, and it makes sense to be a direct report to the superintendent and bring that information forward
- A board member noted that she thought SEAB should be included on this org chart.
- The role of the Chief of Schools was also discussed, with the importance to flesh out the functions for the questions that are asked in the community and schools. Response: This will be a central role in the cabinet to respond to different information about schools, and to coordinate coaching with our assistant superintendents and leaders, and a quality method of coaching and support. This role will also be responsible for direct different work in schools and support assistant superintendents to be a central, coordinated place for school success. This will allow us to have a structure in a timely way. We will also work together to problem-solve and relay information to stakeholders and educators.
- Office of Leadership Development was also noted, and how leadership development is a critical piece to have a consistent and coordinated way for the department. It is helpful to help find creative ways for leaders, as well as lifting those aspiring leaders as well.
- With the new positions, the Board also noted the budgets for those roles. There is money allocated for those positions; the jobs are different and the budget exists for them. There was money for the transitions and there has been deliberate actions in not filling them until now. Also, not all positions are general fund positions – there are other categories. The Board noted that it would be helpful to learn the and understand the fiscal impact on the net cost, and using existing resources. A summary of what has changed would be helpful in understanding the fiscal impact to relay that information to constituent questions. It was also noted that these are priorities in terms of hiring, and Phase 2 and Phase 3 will be at a later date in later years.
• A board member also noted that there was confusion in who reported to whom, and this is a big step forward in clarity on the responsibilities and positioning that we are adding that are important and settling us down to know the roles and how to move forward. She thanked Superintendent Gothard for his work on this, and it has her support because it will help the District.

III. ADJOURNMENT

It was motioned to adjourn the meeting at 7:24 p.m. The motion passed by acclaim.

IV. WORK SESSION

The Board then conducted a work session to discuss two topics. The first was the attendance of board members at the Council of the Great City Schools Annual Fall Conference in October. It was decided that six board members would attend this year to learn and collaborate with other large urban districts across the country. The second topic involved the Board’s submission of project proposals for SEAB. Ideas included the transition supports for students, as well as student engagement in the legislature. Overall, the Board agreed that SEAB could lead these topics into directions that they define if these topics were chosen.

Respectfully submitted,

Facilities

Highland Park Elementary

New Highland Park Elementary addition has a good mix of modern. I like how it's bold in parts, but blends well with the old building.

Definitely a win for the neighborhood. Thanks @SPPS_News!

TOPIC: Naming the Harding Senior High School Gymnasium in Honor of Gerald Keenan

A. PERTINENT FACTS:

1. Gerald Keenan served the students of the Harding community (as well as the greater SPPS community) for 57 years. He started teaching and coaching at Harding in 1975, and took over as the Harding Athletic Director in 1996, serving in that role until 2017. Gerald Keenan also served as Harding graduation and Senior All-night party coordinator for many years. He was an advocate not only for Harding students, but for the entire St. Paul City Athletic Conference.

2. Naming Harding’s gym ‘Gerry Keenan Court’ honors him, his achievements, and his legacy to Harding Senior High School students past, present and future.

3. This item is submitted by Doug Revsbeck, principal of Harding High School; and Dr. Theresa Battle, Assistant Superintendent.

B. RECOMMENDATION:

That the Board of Education approves the request to name the Harding Senior High School gymnasium in honor of Gerald Keenan.

535.00 ACCESS FOR POST-SECONDARY ENROLLMENT OPTIONS STUDENTS

I. PURPOSE
Saint Paul Public Schools (“District”) supports the academic pursuits of all students, including those enrolled in courses as part of the Post-secondary Enrollment Options (PSEO) program. The purpose of this policy is to ensure PSEO students have reasonable access to school buildings and resources.

II. GENERAL STATEMENT OF POLICY
A. A student enrolled in a PSEO course may remain at their school site during regular school hours.
B. A student enrolled in a PSEO course may be provided with reasonable access, during regular school hours, to a computer and other technology resources that the student needs to complete coursework for a PSEO course.
C. As is the expectation for all students, PSEO students must comply with school rules and district policies, procedures, and regulations, such as the Student Behavior Handbook: Rights and Responsibilities.

First Reading       June 19, 2018

Second Reading      July 17, 2018

Third Reading       August 21, 2018

COMMENTS:
I. PURPOSE
Saint Paul Public Schools ("District") encourages innovation from District employees. The purpose of this policy is to inform employees of the law regarding the ownership rights of intellectual property and the resulting proprietary rights of the District to certain publications, instructional materials, inventions, and creations, which employees may develop or create, or assist in developing or creating, during work hours, using District resources and/or data, or within the scope of their employment.

II. DEFINITIONS
For the purpose of the policy, the following terms are defined as follows:

A. Intellectual Property: Includes, but is not limited to, patents, copyrights, and trademarks.

B. Employee: For the purpose of this policy, any staff person of the District, as well as any agent, independent contractor, or other person engaging in work for the District.

C. Work: Includes curriculum, instructional materials, publications, inventions, multimedia, digital media, and other products of creative effort.

III. GENERAL STATEMENT OF POLICY
The Copyright Act (title 17 of U.S. Code established in 1976) states that materials created by employees in the scope of their employment are considered "work for hire" and owned by the employer. Furthermore, employees are compensated for their work. Therefore, the intellectual property rights for work produced by employees during work time, using District resources or data, and/or within the scope of their employment belong to the District.

IV. OWNERSHIP
A. The District owns the intellectual property rights of any work created by any employee within the scope of their employment, unless such work is:
   1. Created entirely on the employee’s own time, outside of work hours;
   2. Created without using District resources and/or data;
   3. Not created to assist in the instruction of District students, development of staff and community, or the various systems supporting the District.
B. An employee retains the intellectual property rights to work that is:
   1. Outside the scope of their employment with the District;
   2. Created outside of work hours;
   3. Developed without using District resources and/or data;
   4. Not created to assist the instruction of students, development of staff and community, or the development and improvement of various systems supporting the District.

V. EXCEPTIONS
The District seeks to promote a culture of innovation. Therefore, exceptions to the law have been developed to encourage creativity from District employees while assuring the District’s interests and the interests of the employee are protected. Details of such exceptions are available in the supporting District guidelines and procedure.
