Welcome to Creative Arts!

We are excited that you have chosen Creative Arts for the challenge we offer students in both academics and the arts. We can’t wait to see you flourish and grow in our program, as you pursue your personal artistic vision, and become an important and integral member of our school community.

At our school, it is an expectation that all students are creating, presenting or performing their work, and reflecting on creative products and processes of their own as well as those of their peers. As such, the audition requirements for each discipline reflect these learning outcomes.

While each discipline is unique, each art area asks students to prepare two things: a portfolio of work or a performance in your discipline that shows your best abilities, and a written reflection. Students will also be expected to do some art-making at the audition, and participate in an interview with a group of teachers.
