Creating your project: 

Name:__________________________________________

Before you start putting your project together - think about these five main sections and create at least a paragraph on each one. All projects must have these five addressed to do well.

Section One:

Tell us about the Topic you chose - think about what was going on in the time period before and during your Topic.

Section Two:

Go in to detail about what life was like before the topic happened and why the action taken was necessary.
Section Three - THE HEART - THESIS Statement

This is where you really talk about your thesis (the Who, What, When and Where) of your Topic and why it was necessary.
Section Four - Short-term

How did this Topic CHANGE things right away?

Section Five -- Long-term -- CONSEQUENCES

What are the long-term effects of this Topic? Why do we remember this, 20 to 30 years later?
