Welcome to PreKindergarten

Our classrooms are a friendly, positive, and secure place in which to learn and work. Together, staff members and families have partnered to create an enriching environment where children can grow intellectually, physically, socially, and emotionally. It is a cooperative and happy environment where parents and teachers work together as partners in the education of their children.

What do we learn in PreK?

This year we will explore Changes in Our World; changes in ourselves, changes in the seasons, and changes in our community. The themes of our units are; The First Six Weeks, Exploring Change, Being Healthy, Adapting, Helping, Creating and...
Constructing, Cycles, and Transitioning to Kindergarten.

We will work and play together to learn our ABCs, numbers, colors, shapes, rhyming, alliteration,... We will also learn how to work together, to share, to be good friends, and about our emotions.

Communication

Communication is critical for your child's learning success. A weekly newsletter will be sent to you through our Seesaw app. Please make sure to read the newsletter as it will contain important dates and information about what we are working on in class.

Seesaw is a digital portfolio that will show you what your child is doing in school. Teachers and students use Seesaw to document student work. It is a great way to communicate what we are doing in school and how to connect with your child at home about what they are doing in school.

Orange folders will be sent home every Friday. Inside the folder you will find information from the school, work your child has done in class, and homework. Homework in PreK is to help families connect with what their child is doing in class.
