It has been an amazing month with lots of learning. We are finishing up our first six weeks. We will start our new area of study: Changes to our World later this month.

Homework has started.

I want to thank you for contributing for the Carnival. I also want to thank you for contributing to the classroom whether it is providing healthy snacks and/or the \$20 classroom supply.

Reading

Students have been working on matching the pictures to the words in a book and identifying the sight words we have been learning.

Sight words:
A, see, the, I, me,
he, go, we, it

New sight words:
an, can, in

Writing

Students have been telling/drawing/writing topics they know about. We have focused on writing their name at the top of the paper, drawing a sketch of their ideas and adding a sight word (I, A, Me). We also encourage writing beginning sounds of words they want to share.

Math

Students have been working on reading and writing numbers 0-10. We are also learning to count forward and backwards from 10. We have just started sort and learning attribute vocab.
