## September

Hello Families and welcome to Global Arts Plus ECSE!

At the beginning of the year we work on learning our daily schedule and our classroom rules and routines. We learn our friend's names and start to form positive relationships. We have a structured schedule that we start on Day 1 with lots of opportunities for students to observe, explore and engage in preferred activities. We also have lots of time for structured activities such as music therapy, morning meeting and small group activities throughout the school day.

If you have any questions, concerns or need anything, please feel free to reach out! I look forward to an amazing year with your child!

## What Are We Learning About?

Our first Area of Study in ECSE is called *Welcome to our School Family*. This area of study prepares children to be active, independent and joyful learners in a classroom community. The first area of study prepares teachers to be learners, discovering and drawing out what children already know about school, their families, cultures, languages and communities. With this understanding, teachers can support the creation of a new community where students feel seen, heard, loved and respected. This leads to an enhanced sense of safety and belonging, giving students freedom to try new things, take risks, make mistakes and engage in the creative process.
