October

Hello Families!

It is hard to believe that we are already one month into the 2022-2023 school year. We have been working hard at building relationships and learning our rules and routines at school.

This month we are wrapping up our first area of study, *Welcome to Our School Family*. After MEA break, we will be starting our new Area of Study- *Exploring Change in My World*. We will have the opportunity to explore a pumpkin, paint colorful leaves, and talk about all of the changes we are seeing, feeling, hearing, smelling and touching as we welcome a new season.

What Are We Learning About?

Our first Area of Study in ECSE is called *Welcome to our School Family*. This area of study prepares children to be active, independent and joyful learners in a classroom community. The first area of study prepares teachers to be learners, discovering and drawing out what children already know about school, their families, cultures, languages and communities. With this understanding, teachers can support the creation of a new community where students feel seen, heard, loved and respected. This leads to an enhanced sense of safety and belonging, giving students freedom to try new things, take risks, make mistakes and engage in the creative process.
