Central High School: a partnership of students, teachers, parents, staff, community members, and alumni – will meet the educational needs of all students, one student at a time, by:

- Striving for academic excellence while providing a safe, caring, and welcoming environment.
- Ensuring equitable opportunities and extracurricular activities that encourage students to value education and develop strong life skills and high self-esteem.
- Acknowledging, respecting, and valuing members of the school community and utilizing the strength that comes from diversity.
- Promoting positive relationships among groups and individuals of all backgrounds in both the school and community.
- Gaining recognition for Central’s contribution to the community and for its high levels of success in preparing students for society.

The Family Engagement Plan (FEP) is organized into four impact areas. We will be working together this year to build positive and goal-oriented relationships in each area. Families and staff at school developed this plan together.
